Per our conversation yesterday. We have found a source of large stones, similar to those at Bobby Nichols GC and some other parks. This should go a long way to controlling traffic driving up and down hill. Our total cost for hauling and setting these would not exceed \$4500. There is not a cost for stones just process of picking them up with a crane truck, delivery and setting them at park. We think this would look good and provide additional seating looking out towards river or park.
