

**Louisville Metro Council City Agency Request**  
**Neighborhood Development Fund (NDF)**  
 ■ **Capital Infrastructure Fund (CIF)**  
**Municipal Aid Program (MAP)**  
**Paving Fund (PAV)**

**Primary Sponsor:** Brandon Coan

**Amount:** \$14,484    **Date:** Nov 25, 2019

**Description of program/project including public purpose, additional funding sources, location of project/program and any external grantee(s):**  
 Transferring \$14,484 to Public Works to be added to \$27,876 previously allocated for Public Works to add crosswalks at all of the stop controlled side street intersections between Broadway and Dundee and to enhance a few of the signalized intersection with bar walks as well as refreshing all of the existing marked crosswalks and bar walks with the exception of Highland & Bardstown, Grinstead & Bardstown and Eastern Parkway & Bardstown. The additional funding is necessary because the original cost estimate was incorrect.

**City Agency:** Public Works  
**Contact Person:** Jeff Brown  
**Agency Phone:** 574 0065

**I have reviewed this request for an expenditure of city tax dollars, and have determined the funds will be used for a public purpose and have the attached documentation from the receiving department concerning the project/expenditure.**

**Subject:** RE: Baxter/Bardstown Rd from Broadway to Dundee crosswalk markings

So we need to transfer an additional \$14,484 to Public Works for this since we've already paid \$27,876? Jeff, can you confirm that PW will accept the money for this project?

Thank you

Jasmine Weatherby (she/her/hers)

The collision history supports the pedestrian safety improvements at that intersection so we will be able to participate but I'm not sure how much yet. We could narrow the limits of the crosswalk project and stop at Speed or Douglass to reduce cost for now.

Yikes!

Jeff: do you feel reasonably certain at least some of that ped safety improvement \$ will be there to pay for the "Yang Kee Noodle" project? My goal is to do all these of these crosswalks, build the YKN project and convert all the corridor lighting to LED. I have \$119K total in CIF and CDF to make it happen and need to count on at least part of that 117.5, esp. with the above sticker shock. The last thing I want to do is delay the crosswalk implementation. Jasmine can arrange for a transfer of the balance once we hear back from you.

Just to clarify, audible peds can only be installed in locations where they have been approved and warranted.

In order to have them, there has to be a known visually impaired pedestrian that uses the location on a regular basis and once this has been verified by the state agency for the blind, only then will central office approve the installation of the buttons.

Councilman Coan has funded some safety improvements for the Bardstown Rd corridor based on the recommendations in the [Safety Study](#). Right now we are just looking for a small scale, inexpensive project to enhance pedestrian safety. I am proposing to add crosswalks at all of the stop controlled side street intersections between Broadway & Dundee and enhance a few of the signalized intersections with bar walks. In addition, we are also proposing to refresh all of the existing marked crosswalks & bar walks with the exception of Highland & Bardstown, Grinstead & Bardstown and Eastern Pkwy & Bardstown.

Attached is a spreadsheet with a description of the proposed work and an exhibit showing the first 6 intersections as an example.

Here's a quick note on the proposed changes:

Adding yield bars at two of the existing mid-block school crossings near Edenside and at Alfresco

Enhancing the off-set Bonnycastle intersections crosswalks with bar walks but they may not be equipped with audible peds.

Just let me know what I need to do to get this project started. Did you want to issue a permit?
