Re: Determination of Agricultural Use – 4301 Mud Lane, Louisville, KY 40299

Dear Mr. Greenwald:

I received the new survey (enclosed) from you and your clients on November 12, 2018. The new survey identifies the property as being 5.00 acres because as you mentioned in your email the State of Kentucky only requires a survey to be out to two decimal places; to be more specific the size of the property is 5.0021 acres. With the size now conformed to be at least five acres in size the agricultural determination letter (enclosed) that I submitted to you on September 14, 2018, remains valid. Please consider this letter as an official confirmation from my office that the previous agricultural determination is effective based on the date of this correspondence.

If you have questions regarding this determination, please feel free to contact me at 574-6678 or email Emily.Liu@louisvilleky.gov if you have questions or need additional information.

Sincerely,

A handwritten signature in black ink, appearing to read "Emily Liu".
