Good Afternoon Craig,

Thank you for all of your work on these estimates. We are ready to move forward and I will submit the paperwork as soon as possible.

Thank you again and have a wonderful day.

Councilwoman Denton,

As you probably know I sent a list of sidewalk repair estimates to Chanelle last week. I am sending the following repairs to finish the list of estimates that was requested previously. From that previously list 304 Willow Stone Way and 846 Lake Forest Pkwy have already been repaired.

All of these estimates for repairs total \$23,785.92. Public Works will fund half of this amount (\$11,892.96) towards these repairs if you are able to fund the other half. Please let me know if this will work for you.

Thanks,

Craig Allen

Chanelle,

Here are most of the estimates below so that you have an idea of what you are up against. I just got them back yesterday. The last four, I hope, will be completed by our Inspector Supervisor for that area today.

Just a quick note, 2405 Galloway Ct. was the original address on SR 4373674 however it doesn't need any repairs. 2407 Galloway Ct has a bad sidewalk so the estimate for this address is below instead.

Thanks,
Craig

Subject: FW: Follow Up From Thursday meeting

Hey Craig,

I know you are extremely busy. I just wanted to touch base before I left for vacation next week. We had discussed on the phone that we are wanting to do our very best to get all of the 4's and 5's within District 19 repaired that we can in FY 16. We had also discussed that when Public Works repairs sidewalks they do them in clusters to be more efficient. I had shared with you that the Councilwoman was wanting the address below placed in the clusters of which they would be repaired in and a cost estimate for each of those clusters. This way we can see if we can repair them all or which clusters we can repair. Just wanting to see where we are at with that.

Like I said I am out on vacation next week but just wanted to touch base. Do you think we could possibly have this list by mid to late June?

Thank you for your assistance with this request, I know it is not a small one, we truly appreciate it.

Hi Chanelle,

Unfortunately we only have ratings for some of the city's sidewalks. The typical way ratings are obtained is someone (could be a government worker, resident, business owner, etc.) calls 311 and reports that there is a damaged sidewalk at a certain address. A Public Works Inspector will then be notified to go out and rate the sidewalk on a 1 to 5 scale, 5 being the worst and 1 being typically just aesthetic issues. Whenever a sidewalk is reported and rated it goes on a list that Public Works keeps until a repair is made.

At present there are lots of damaged sidewalks on our list and not enough money to repair them all so Public Works has been encouraging the council representatives to repair just the sidewalks rated a 4 or 5 (sidewalks rated a 4 or 5 are impassable for people in wheel chairs). Public Works also has a sidewalk repair budget that I'm using to repair 4's and 5's throughout the city. If Councilwoman Denton wants an estimate for a sidewalk that has already been rated please request it through 311 or metro.call@louisvilleky.gov. The estimates are only good for 90 days. Typically when a council representative makes an appropriation they have a list of repairs they want to fix. Preferably 5 or more in relatively close proximity so that we can easily make it worth the contractor's time.

I attached a list of District 19's sidewalks rated a 4 or 5. They were all reported pretty recently. Councilman Miller kept up with the repairs pretty well. If you need an estimate please request it through MetroCall and the Inspector will email

the estimate directly to you. Once you have a list of repairs you want to do let me know and I'll be the project manager for the repairs.

Address	Date of Request	Service Request #	Rate
304 WILLOW STONE WAY	4/13/2014	4291884	5
835 LAKE FOREST PKWY	5/9/2014	4303269	5
16805 POLO FIELDS LN	6/11/2014	4318072	5

Chanelle,

You might need to check with Craig Allen, he handles all of our sidewalks.
