Charles,

Please see the below estimates. 6504 and 6511 Jennifer Valley Way are the estimates you requested. While I was there I saw multiple other bad sidewalks on the block but 6517 Jennifer Valley Way really stood out as worse than the rest so I included an estimate for this one as well.

There is a tree at each address causing the trip hazards. I am going to ask the Arborist for his recommendation on whether or not the trees need to be removed or can be salvaged. If one or more of the trees don't need to be removed the total cost would go down. If you have any other questions please let me know.
