SECTION 3 - AGENCY DETAILS

Describe Agency's Vision, Mission and Services:

Honor Flight Bluegrass is an all-volunteer organization based in Louisville, Ky and a 501 (c) 3 charitable organization . Our administrative costs are under 3% and the rest of our income goes to providing Honor Flights for our veterans. As a member of the Honor Flight Network, which consists of 133 Chapters in 44 states, we are on a Mission!

Our mission is to provide an all-expense paid Flight for WWII, Korean War and Vietnam War Veterans to see their service memorials in Washington DC. Unfortunately, we are in a race against time! Our vision is to help as many of these Veterans as possible, take an Honor Flight before it's too late.

At this time, there are fewer than 4000 WWII Veterans in Kentucky and we losing approximately 360 WWII Veterans in the U.S. each day. Korean War and Vietnam War Veterans are being lost in comparable percentages. At this point, WWII Veterans are in their 90s or older, Korean War Veterans are in their mid 80s or older and the average age of a Vietnam Veteran is 71. Time is Critical!

We provide a number of services to Veterans on our Honor Flights including:

- Round trip Airfare
- Breakfast Lunch and Dinner
- Complimentary Check-in by the Honor Flight Bluegrass Ground Team
- Honor Flight Veteran T-shirt and lanyard ID
- Complimentary Wheel chair (if required)
- Police Escorted-Bus Transportation to each Memorial and Arlington Cemetery
- Mail Call with Letters of Appreciation from Family, Friends and Appreciative Citizens
- Complimentary Honor Flight Photo Book which contains a page for each Veteran

In summary, many Veterans would not be able to go to Washington D C to see their Memorials without our help. We are loosing Veterans faster than we can get them assigned to an Honor Flight. Time is of the essence and we need help to fund more Honor Flights.

SECTION 5 - PROGRAM/PROJECT NARRATIVE

A: Describe the program/project start and end dates, a description of the program/project and applicable data with regards to specific client population the program will address (attach related flyers, planning minutes, designs, event permits, proposals for services/goods, etc.):

The Honor Flight Bluegrass Chapter was started in 2008 and is celebrating it's 10th anniversary in 2018.. Over the years, as the number of WWII Veterans has decreased, we have expanded to include Korean War and Vietnam War Veterans. We currently have over 450 active Veterans Applications in our system.

In the first eight months of 2018, we received 363 Veteran Applications. At the end of 2018, we estimate that we will have over 500 applications in our system. Without more flights, we will never be able to provide all of these Veterans with the Honor Flight trip they so richly deserve.

A flight typically contains a mix of approximately 80 WWII, Korean War and /or Vietnam Veterans, 80 Guardians and 20-25 staff, medical and media personnel. Due to the advanced age, limited mobility and fragile medical condition of many of the Verterans, we typically hold our flights in the months of May, June, September or October, to avoid extreme weather conditions.

An Honor Flight takes a full day and a typical schedule includes the following:

- 5:00am-Check-In and Orientation at Louisville International Airport
- Flight to Washington DC with entertainment by the Ladies of Liberty singing group
- Arrival at airport in Washington D C. to a water cannon salute, bands playing, and children and Volunteers cheering,
- Charter Buses loaded and a police escort is provided to downtown Washington D C.
- First stop-The WWII Memorial. Veterans and Guardians are frequently greeted by U.S. Senators and House Renrepresentatives from Kentucky and Southern Indiana

B: Describe specifically how the funding will be spent including identification of funding to sub grantee(s):

Honor Flight Bluegrass increased the number of flights per year from two flights to three flights in 2017. This was done because we are losing WWII, Korean War and Vietnam War so quickly. Accordingly, this has significantly increased yearly HFB expenses. The \$10,000.00 portion of the Grant for which we are requesting Funds will greatly help to cover the actual cost of an Honor Flight to Washington, D C.

The remaining \$9,000.00 will be used to purchase wheelchairs and a sound system. The expenses for most Honor Flights are relatively constant. However, significant factors which can dramatically affect the cost of an Honor Flight are the size and availability of the airplane chartered, In addition, there has been a decreasing availability of charter aircraft on the market which is leading to an increased cost to charter an airplane.

(initials)

The net cost for each Honor Flight is approximately \$77,000.00 while the Gross Cost is close to \$107,000.00. The difference in the net and gross costs is the income obtained from Guardian Fees. Of course, Veterans fly free! However, there is a fee of \$500.00 for Guardians. These Guardian payments help to mitigate the cost of the flight.

A detailed HFB Flight Budget report for 2019 is attached.

E: Describe the program's benefits to those being served (measurable outcomes). Include the program's process for collecting data and the indicators that will be tracked to measure the benefits to those being served:

We count the number of Veterans and their families who we have been able to provide with this wonderful trip (see attached list of HFB participant Testimonials). It is important to also count the number of Guardians who so willingly help the Veterans to which they are assigned and help support each Honor Flight with their Guardian Fees. Honor Flight Bluegrass has a significant impact on the many members of the Louisville Community at large which step up and incrementally fund our flights. Deeply involved and an integral part of each flight, are the thousand plus people in the Louisville Community who turn out to "Welcome Home" the Veterans at Louisville International Airport. There are hundreds of Volunteers involved in making each flight a success. In addition to the staff and Guardians on each flight, there are 40 Ground Crew members, 4 mail Crew Members, 10 Package Assembly members and numerous other Volunteers who handle wheelchairs, stuff envelopes, and make telephone calls. The involvement by so many helps to make each Honor Flight a Community-wide Event.
Please, see attached Honor Flight Bluegrass Veteran Testimonials

F: Briefly describe any existing collaborative relationships the organization has with other community organizations. Describe what those partners are bringing to the relationship in general and to this program/project specifically.

Increasing awareness to Honor Flight Bluegrass and its Mission, as well as Recruiting, are key components to the success of HFB. Accordingly, Honor Flight Bluegrass has held events to raise awareness and Register Veterans and Guardians with the help of several partnering organizations including:

Rotary International
VFW Posts
American Legion Halls

Often, organizations hold fundraising events which, in addition to raising awareness, help Honor Flight Bluegrass recruit Veterans and Volunteers. Organizations who have recently held fundraising events to benefit Honor Flight include:

WHAS- On air Program and auction
DAR Salt Rive Chapter-Poker Run
St. Matthews Fire and Rescue, Goodwood Brewing and Molly Malones-Benefit Night
Kroger's-Hubbards Lane, Louisville-Veteran Meet and Greet/Fundraising Event

Does your Agency anticipate a significant increase or decrease in your budget from the current fiscal year to the budget projected for next fiscal year? NO YES

If YES, please explain:

The largest expenditure Honor Flight Bluegrass has for each Flight is Chartering an Airplane. With the decreased number of charter aircraft available, the price for chartering an aircraft has risen significantly. This issue is compounded by the fact that there are fewer days that airplanes are available to charter.

Agency Fiscal Year Start Date: January 1st

Does your Agency anticipate a significant increase or decrease in your budget from the current fiscal year to the budget projected for next fiscal year? NO YES

If YES, please explain:

The largest expenditure Honor Flight Bluegrass has for each Flight is Chartering an Airplane. With the decreased number of charter aircraft available, the price for chartering an aircraft has risen significantly. This issue is compounded by the fact that there are fewer days that airplanes are available to charter.

Video of RPG15 :

Description:

The Rockville RPG15 powered PA speaker is simply amazing in terms of sound quality, and raw power! This speaker has an incredible 1,000 watts of peak power and will deliver a massive amount of bass, mids, and highs. The ultra-efficient design is amazing!

This speaker is the result of a year of research and development. We tested samples of 5 top selling powered speakers and the RPG series out-performed them all. These go louder and have punchier bass. What we found to be interesting was that some of the other speakers we tested against these were rated by their manufacturers at 1,500 watts or more, but they only went around half as loud as these.

The 15" woofer built into this speaker has a 3" aluminum voice coil which provides an extremely loud, deep, punchy bass response. Couple that with our state-of-the-art 1.35" Japanese made pure titanium-diaphragm compression driver and the ultra-wide dispersion, 40° large-format horizontal wave guide horn and you get beautiful full range concert-quality sound. The linear class A/B amplifier built into these speakers is efficient and provides clean power to the speaker. Some of the competing speakers use cheap amps in their speakers. We really went out of our way to make sure the amp built into these speakers gives you enough power so you can

really feel and taste the music. The amplifier also has a clipping LED and a limiter to ensure long life to the speaker. The built in 2 band EQ will allow you to fine-tune and tweak the sound to your liking.

The RPG15 has a versatile trapezoidal enclosure design which allows you to use it as a PA speaker or you can use the included mounting brackets and lay it on its' side to be used as a floor monitor. It is also flyable and stand mountable giving you many options on how you can utilize these speakers.

We also included all the inputs and outputs you would need along with great controls. These have XLR and 1/4" ultra-low noise Mic / Line inputs with volume control as well as line RCA and XLR inputs with separate Gain adjustments. There is also an additional balanced line output via XLR for linking of additional speakers.

If you are in the market for a high quality 15" active speaker, then we highly recommend the RPG15. We feel this is the best value on the market. You get great features, great quality, high power, and a lot of versatility for a great price.

About Rockville Quality Control Procedures:

The Rockville brand stands for Quality, Innovation and Value. All Rockville products go through the most rigorous quality control standards in the industry. Products go through months of extensive testing before they reach your hands. All user functions are tested and all internal components are tested for quality. Rockville makes products that are virtually un-breakable! Rockville is one of the only brands in its class to test every concept model for weeks or months before starting production. Once production begins, Rockville sends product engineers to their factory to quality control every line of production. During production every product is tested and on top of that Rockville goes the extra mile and has their high level product engineers do an additional quality control. They test a certain percentage of all products from the production line a second time to ensure that the quality meets their vigorous standards, and to make sure that there is never a batch of products with even a slight problem. All Rockville DJ/PA speakers are backed with a full 1 Year warranty, though it is unlikely that you will need to use it.

The Rockville Difference:

Video of RBG15FA:

Description:

Ultra-efficient, Earthshaking Folded-Horn Powered Subwoofer

What the hell is a Folded-Horn Subwoofer anyway?

Folded-Horn Reflex Technology Explained:

Any "horn" shape, which gradually expands from a small inlet to a large opening, will act as a

physical amplifier for sounds applied to the smaller end. When coupled to a loudspeaker it improves its efficiency. However, a full size horn that would work at low frequencies would make for an impractically large cabinet. By "folding" the horn back on itself (so that the inlet can be near the outlet), you can significantly reduce its size, without compromising the effect. When this technique is used to take the energy from the back of a speaker and redirect it to the front, you have a folded-horn, bass-reflex cabinet.

The Rockville RBG15FA folded horn subwoofer will blow you away. Please do not let the price point of this item fool you. Our goal was to manufacture a crazy loud and great sounding subwoofer. We started by testing subs by other brands that were retailing between the prices of \$699 and \$1999. One of our favorite subs was an old Mackie model called the SWA1501Z. We loved the folded horn technology. The sub sounded great, packed a huge punch, and sounded as good as subs that cost twice the price. So our engineers decided on creating our sub with folded horn technology as well. When we were done manufacturing this thing, I was so blown away when I heard it. I do not believe there is a sub sounding this loud and this good even at triple our price. This sub should sell for \$1000 easily. If you buy this sub and are not happy with this product, we will call tag it and refund you in full. This is not some off brand powered sub. This is a premium product that is built for real professional use. I am so confident in the sub that we are going to offer a 30 day money back guarantee. If you don't like the power or how it sounds, we will pick it up from your house and refund you.

When we first listened to the Rockville RBG15FA and experienced this super-powerful active subwoofer we were blown away. Here's your chance to change the way you listen and play live sound; by adding the RBG15FA Folded-Horn subwoofer to your PA rig. Just be prepared to be amazed! Rockville packed a powerful amplifier into this subwoofer. There is a high quality onboard crossover that lets you get the absolute maximum out of this 15" sub. This unit has lots of connection options including; combo XLR – ¼" TRS inputs with Level control and XLR parallel thru puts to secondary units. Just connect your main mix outputs to the subwoofer, and then link your main speakers from the RBG15FA! This sub features a heavy-duty pole-socket so you can mount your main speaker on top for easy setup and positioning. This item also comes complete with locking 2" caster wheels and carry handles making it easily transportable. Additional controls include a fully adjustable variable low pass crossover circuit and additional XLR High pass outputs.

We built in a circuitry that controls over-excursion, thermal, and clipping protection with individual LED indicators. These features protect the subwoofer to ensure it lasts for years and years.

The 15" driver features a high temperature 4-layer 4" voice coil and is set in a 110oz magnet motor structure. The subwoofer is enclosed in a high quality solid wood enclosure. This is a heavy duty thick wood. This is a heavy duty enclosure. The sub weighs in at 83 pounds. This thing is the real deal. The amplifier features an internal heat sink with a heat sensitive, variable speed, auto turn-on fan cooling system, so even when your music gets HOT – your amp will stay cool.

Lets talk power for a second. Different brands have unique ways of rating their products. So off brands might just make up crazy peak power ratings and write things like 10,000 watts. Premium brands will generally give you legitimate RMS power ratings. So let me explain our ratings and our thought process. This powered sub is 600 watts RMS rated. This is the true continuous power rating. So if a premium brand such as Yamaha or Mackie were to build this same subwoofer, this is around the same RMS rating they would rate it at. 1,200 watts program power is basically a safe number the sub can handle during peak power of the songs but at an average volume level. This is the way some middle-of-the-road brands would rate it. The peak power of 2,400 watts is what the sub can produce for a split second during the loudest point of a song at full volume. I have seen entry level brands write 4000 watts on subs with a quarter the power of this one. Our peak rating is actually a legitimate peak rating, however peak ratings are not important and can vary greatly depending on many factors.

Video of RCXFM50P-B:

Description:

All Rockville pro audio cables are made with 100% copper which boosts the efficiency of the cable. There is nothing better than 100% copper. Most of the cheaper cables on the market do not use 100% copper, instead they make their cables with CCA (Copper Clad Aluminum). CCA cables do not perform on the level that 100% copper cables perform at. CCA will not conduct signals efficiently. A 12 gauge CCA cable will not even perform as well as a 14 gauge 100% pure copper cable, which will in turn, affect the performance and longevity of your equipment. If you find cables on the market that do not mention the copper content, there is a good chance that they are selling you a cheaper cable that is CCA and not 100% copper. Rockville pays an inspection company to oversee the manufacturing of the product to ensure that we provide a 100% Oxygen Free Copper Cable (OFC). Our OFC cables are less prone to oxidation, and will provide maximum signal transfer.

The other important factor of a cable is the shielding. Most of the good brands on the market have about 85% shielding coverage, so we decided to take our shielding a step further. Rockville cables are shielded with a tight copper mesh, covering 90% of the cable! The high percentage of coverage increases the ability to absorb the Electromagnetic Interference (EMI) and Radio Frequency Interference (RFI) that suppresses signal and degrades the performance of equipment. Rockville Cable's copper shielding provides great flexibility, maintains a durable structural integrity, while decreasing signal interference ensuring enhanced signal clarity with every use.

Features:

- Rockville RCXFM50P-B Black 50 Foot Nickel Plated, Female to Male REAN XLR Microphone Cable
- XLR Connectors with Internal Strain Relief for Rugged Reliability

- 100% Copper Conductors for Enhanced Signal Clarity
- 90% OFC Spiral Shield for Effective EMI and RFI Rejection and Flexibility
- Length 50 Ft
- Color: Black

NOTES TO FINANCIAL STATEMENTS
FOR YEAR ENDED DECEMBER 31, 2016**

Note 1. Nature of Operations and Significant Accounting Policies

Nature of operations:

Honor Flight Bluegrass Chapter, Inc. (the Organization) is a Louisville, Kentucky based 501(c)(3) all-volunteer non-profit organization created to honor America's Veterans for all their service and sacrifices.

We fly our heroes to Washington, DC to visit and reflect at their memorials for their service, sacrifices, and memories.

Top priority is given to the senior Veterans - WW II Survivors along with those other Veterans from any war that may be terminally ill, those with too few tomorrows. Subsequent priorities are given to Korean and then Vietnam War Veterans.

Significant accounting policies:

Basis of accounting:

The accompanying financial statements have been prepared on the cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Under that basis, certain revenues and the related assets are recognized when received rather than when earned and certain expenses are recognized when paid rather than when the obligations are incurred. Consequently, the Organization has not recognized contributions receivable from donors nor accounts payable to vendors, and their related effects on the change in net assets in the accompanying financial statements.

Cash and cash equivalents:

The Organization considers all monies in banks and highly liquid investments with a maturity of three months or less to be cash equivalents.

Letter to Management

In planning and performing our audit of the financial statements of Honor Flight Bluegrass Chapter, Inc. (the Organization) for the year ended December 31, 2016, we considered the Organization's internal control to plan our auditing procedures for the purpose of expressing our opinion on the financial statements and not to provide assurance on internal control.

However, during our audit, we noted certain matters involving internal control or other operational matters that are presented for your consideration. This letter does not affect our report dated March 28, 2018 on the financial statements of the Organization. Our comments and recommendations, all of which have been discussed with appropriate members of the Board of Directors, are intended to improve internal control or result in other operating efficiencies. We will be pleased to discuss these comments in further detail at your convenience, perform any additional study of these matters, or assist you in implementing the recommendations. Our comments are summarized as follows:

1. Segregation of Duties

Proper internal control procedures require that there be an adequate segregation of duties to ensure the proper safeguard of assets. Due to the limited number of the Organization's volunteer staff, there exists an absence of appropriate segregation of duties consistent with appropriate control objectives. The duties of receiving, disbursing, recording, and reconciliation of bank accounts are not separated, which could lead to the possibility of the misappropriation of cash. The Organization does not have the ability or funds to increase the number of volunteer staff to ensure that adequate internal controls are in place to safeguard against the misappropriation of cash. We recommend that the Organization review its current internal control procedures to ensure that at a minimum they include the following:

1. Adequate bonding insurance coverage;
2. An accounting and administrative procedures manual;
3. Direct deposit of funds, when possible;
4. Have a person open mail and write a list of donor and donations, a different person; should deposit the donations, and a third person to perform bank reconciliations and compare the donor list with deposit slips;

1. Segregation of Duties (Continued)

5. Treasurer signs all checks;
6. A Board Member other than the Treasurer review, and signify approval by signing and dating the monthly bank reconciliations;
7. Treasurer prepares a monthly Treasurer's Report and presents to Board for approval;
8. All investments and related income be recorded on the books;
9. Maintain a schedule of fixed assets; and,
10. Board provide prior written approval for all investments, contracts, and major expenditures.

2. Adequacy of Bonding Insurance Coverage

As a part of our regular audit procedures, we reviewed the Organization's bonding insurance coverage and as a result, noted that the level of bonding insurance seemed low in relation to the dollar value of assets and revenues. Bonding coverage insures an organization in the event of theft or embezzlement by a volunteer and is an inherent element in any system of internal controls. While the Organization increased their bonding coverage from \$250,000 to \$350,000 subsequent to fiscal year end December 31, 2016, on February 27, 2017, we strongly recommend that the limits of the Organization's bonding coverage be reviewed on an ongoing basis by both the Board and an insurance professional and adjusted accordingly.

3. Deposits Exceeding FDIC Insurance

During our testing of cash balances, we noted that the Organization had on deposit with the bank \$62,886 in excess of the \$250,000 FDIC limits. We recommend that the Organization enter into a security agreement with the bank to ensure that adequate collateralization exists to safeguard the Organization's deposits.

4. Documentation for Revenue

During our testing of revenues, we noted that the Organization was unable to provide recognition letters associated with 9 donations tested, which prevented us from tracing to the source of the receipt to the deposit. We recommend that the Organization implement policies and procedures to ensure that recognition letters are created and provided to donors when appropriate, and that the Organization keep copies of all recognition letters.

5. Invoice Approval and Cancellation

During our review of the internal control questionnaire and testing of expenditures, we noted that the Organization does not explicitly approve all invoices, nor does the Organization cancel invoices once paid. We recommend that the Organization implement written policies and procedures requiring the approval of invoices, and that the approver signifies their approval directly on the invoice by signing and dating the invoice. Further, we recommend that once paid, invoices are cancelled to prevent the possibility of resubmission for payment.

4. Have a person open mail and write a list of donor and donations, a different person; should deposit the donations, and a third person to perform bank reconciliations and compare the donor list with deposit slips;

6. Bank Reconciliation Procedures

During the audit, we noted that the bank reconciliations were not performed in a timely manner, and also that the bank reconciliations lacked evidence of review and approval. The Organization should implement written policies and procedures requiring the timely reconciliation of bank statements following their receipt by the Organization. Additionally, the Organization should require someone other than the reconciler to review and approve the reconciliations, and this reviewer should signify their review and approval by signing and dating the reconciliations.

7. Organization should Deposit and Record Receipts Daily

During the audit, we noted that the Organization did not make daily deposits of receipts, and also recorded receipts when deposited into the bank, rather than when received. The Organization should record receipts when received, and should also deposit receipts on a daily basis, when received.

8. Accuracy and Timeliness of Recognition Letters

During the audit, we noted that a number of the Organization's Recognition Letters which were sent to donors were either inaccurate or were not prepared in a timely manner. We noted that 18 of 37 (49%) provided and tested Recognition Letters were dated more than 3 months after the donation was deposited by the Organization, and some were dated as long as 8 months after the donation was deposited. Furthermore, we noted one letter that mentioned a dollar amount that differed from the actual donation, another letter that mentioned two donations when only one was deposited and recorded, and two letters that were written for amounts that were not actually donations. We recommend that the Organization implement written policies and procedures requiring the timely preparation of Recognition Letters and also that the Organization implement a review process performed by someone other than the writer of the Recognition Letters to ensure the accuracy of the information contained in these letters.

We believe that the implementation of these recommendations will provide Honor Flight Bluegrass Chapter, Inc. with a stronger system of internal accounting control while also making its operations more efficient. We will be happy to discuss the details of these recommendations with you and assist in any way possible with their implementation. This report is intended solely for the information and use of the members of the Board and is not intended to be and should not be used by anyone other than that specified party.

“What we have returned from our flight with what is a profound sense of the loss of lives, buddies whose lives were cut short, the enormous cost of freedom, and gratitude that we are still alive and here. We know we are the lucky survivors. To have someone, indeed, whole rows of people, hundreds, thank us for the price we and our brothers paid for our freedoms is moving beyond words. “ Paschal B. and Charlie E. October, 2015

“I won’t forget this day. The number of very young people who showed their appreciation confirmed my belief that patriotism is alive and well. Our reception at Washington and again in Louisville along with letters at mail call was very emotional for me.” Ted. H June, 2017

“I just got off the phone with my Veteran to see how he was doing after the flight yesterday. He probably talked for 20 minutes nonstop about how much yesterday meant to him and his whole family. I think they were all overwhelmed by that reception last night. It really defies words. I will say, however, that it restores my hope for this country.” Patrick W. Sept. 2018.

“The Honor Flight yesterday was amazing. You guys have this plan down to a science. I never have been to a day event so large that has every detail coordinated and timed.:" Rob. O, Sept. 2018

“Thanks to Vic for being my Dad’s Guardian. Dad said he didn’t let him do anything but have fun! Dad talked all the way and back from the visitation about the trip. He was so impressed on how the whole thing was organized and put together. He talked about getting to meet some of the other guys and about the memorial. He loved the police escort through Washington and what he saw, and the plane ride with the singers.” Dede G. Sept. 2017.

“ I don’t know what you guys did on the trip, but my brother(Vietnam Veteran) is a changed man. He is pleasant and conversant for the first time in years. My thanks and blessings to you and your team.” Dennis L. June 2017.

Celebrating 10 Years With All WWII Veterans Honor Flight

Every Soldier, Sailor, Airmen and Marine signed a check made out to the United States of America for an amount “up to and including my life”. That commitment makes it is imperative that we commit to honoring these heroes.

We are Honor Flight Bluegrass. Our mission is simple, we take World War II and Korean War Veterans to Washington DC to see “their” memorials. The Honor Flight Network is comprised of over 130 “hubs” across the United States and has flown well over 200,000 veterans since 2004 to see their memorials. Our Louisville hub – Honor Flight Bluegrass has flown over 2,000.

Honor Flight Bluegrass is celebrating its 10-year anniversary! Our first flight of 2018 is to fly 60 WWII veterans to see their Memorial on D-Day, June 6. These flights are free for our veterans! To insure the upmost safety, we include a medical team, staff, and an individual guardian for each veteran. After seeing all of their memorials, we throw a festive and memorable homecoming that most of them never had. We know we have accomplished our mission when we hear “this is the best day of my life”.

Time is critical! We need your help to find WWII Veterans!! We only have about 4,000 WWII veterans left in Kentucky. Of the 16 million men and women who served in WWII, only about 500,000 remain.

Honor Flight Bluegrass is solely operated by volunteers and community funding. You too can help us find veterans, donate to the mission, or volunteer your talents. Visit our website at www.honorflightbluegrass.org to apply to take an Honor Flight as a veteran, serve as a guardian, be a volunteer or to make a donation. You may also contact us by email at: info@honorflightbluegrass.org or by phone at 888-998-1941. For additional assistance, please contact our World War II veteran coordinator, Mr. Jeff Thoke, at 502-645-5421.

Please, help us locate and honor our WWII Veterans. Thank you!
