To Whom It May Concern:

I am currently applying for a Short-Term Rental Conditional Use Permit to list my property as an option on AirBnB. As I have been made aware, the City of Louisville recently approved regulations that restrict rentals within 600ft of each other, and there are currently two rentals within those parameters. I am requesting an exception due to the fact that myself and my family currently live in the home. My house is zoned as a single-family residence and I plan on renting out the mother-in-law suite that is on the third floor. I would like to request a Condition of Approval that would require myself and any future owner of the property to live on-site in order to operate short-term rentals.

Thank you for your consideration,
