

Board of Zoning Adjustment
Staff Report
 November 01, 2021

Case No:	21-VARIANCE-0122
Project Name:	South 3 rd Street Variance
Location:	4330 S. 3 rd Street
Owner/Applicant:	Paula & Alexander Davis
Jurisdiction:	Louisville Metro
Council District:	15 – Kevin Triplett
Case Manager:	Heather Pollock, Planner I

REQUEST:

Variance from Land Development Code section 5.4.1.D.2 to allow a private yard area to be less than the required 30% of the area of the lot.

Location	Requirement	Request	Variance
Private Yard Area	1,800 sq. ft.	868 sq. ft.	932 sq. ft.

CASE SUMMARY/BACKGROUND

The subject site is zoned R-6 Multi-Family Residential in the Traditional Neighborhood Form District. The property is located on the west side of the 4300 block of S. 3rd St. in the Wilder Park neighborhood. There is an existing two-story single-family residence and a detached garage. The applicant is proposing to build a 240 sq. ft. addition to the primary structure that will reduce the required private yard area to less than 30% of the area of the lot.

STAFF FINDINGS

Staff finds that the requested variance is adequately justified and meets the standard of review.

Based upon the information in the staff report, and the testimony and evidence provided at the public hearing, the Board of Zoning Adjustment must determine if the proposal meets the standards for granting a variance established in the Land Development Code from section 5.4.1.D.2 to allow a private yard area to be less than the required 30% of the area of the lot.

TECHNICAL REVIEW

No technical review required.

INTERESTED PARTY COMMENTS

No interested party comments were received by staff.

RELATED CASES

There are no related cases.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCE FROM SECTION 5.4.1.D.2

- (a) The requested variance will not adversely affect the public health, safety or welfare.

STAFF: The requested variance will not adversely affect the public health, safety or welfare, because the structure must be constructed to comply with all building codes, including fire codes.

- (b) The requested variance will not alter the essential character of the general vicinity.

STAFF: The proposed addition will not alter the essential character of the general vicinity as it is going to be built with material that will be in character with the existing residence and surrounding residential neighborhood.

- (c) The requested variance will not cause a hazard or nuisance to the public.

STAFF: The requested variance will not cause a hazard or nuisance to the public because the structure must be constructed to comply with all building codes.

- (d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.

STAFF: The requested variance will not allow an unreasonable circumvention of the zoning regulations as the existing private yard area does not meet the current requirement and there is additional open space in the primary structure area that can not be included in the private yard area calculation.

ADDITIONAL CONSIDERATIONS:

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone.

STAFF: The requested variance does arise from special circumstances which do generally apply to the land in the generally vicinity or the same zone as there is not adequate space between the primary structure and the accessory structure area to meet the private yard area requirement. The addition will further reduce this space.

2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant as there is not adequate space between the primary structure and the accessory structure area to meet the private yard area and there is additional open space that cannot be counted toward the private yard area calculation.

3. The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances are not the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought as the applicant is requesting the variance and has not begun construction.

VARIANCE PLAN REQUIREMENT

In accordance with LDC Section 11.5B.1.C (Requirement to Follow Approved Plan), a variance shall be approved only on the basis of the plan approved by the Board and shall be valid only for the location and area shown on the approved plan. All construction and operations must be conducted in accordance with the approved plan and conditions attached to the variance.
