- This contract is used to support a collection of services and resources that are used on the back end of operations at the library.
- This service helps to create and update the catalog database for new materials held by the library.
- This service adds the descriptive explanation of the materials so patrons may search for needed materials.
- Utilizing this service helps to alleviate adding additional duties to staff, while also adding the license and descriptions directly to the database.
- Only patrons with a valid library card are able to utilize these subscribed databases.
- The not-to-exceed amount on this contract is \$60,000 for 2020, the bulk of that amount is for this service. Previously, the amount used totaled roughly \$37,000.
- Several questions were asked regarding the library loan program and if other counties also provide this service to Louisville Metro and it was stated that for the most part Louisville Metro borrows more materials on behalf of patrons from other counties public and academic libraries than it sends out.
- Items may possibly be borrowed from the University of Louisville Law Library if they participate in the loan program and library staff will refer a patron to the OCLC system to conduct a search to identify libraries that have the item and will send a request on behalf of the patron.
