### Louisville Metro Council City Agency Request

- Neighborhood Development Fund (NDF)
- Capital Infrastructure Fund (CIF)
- Municipal Aid Program (MAP)

Primary Sponsor: Marianne Butler

Amount: \$7,739.40 Date: May 1, 2014

Description of program/project including public purpose, additional funding sources, location of project/program and any external grantee(s):

The Department of Solid Waste Management will receive \$6,996.00 of this request for metal trash receptacles to be placed in various locations in the Oakdale Area in District 15. \$743.40 of the request will go to The Department of Public Works to pour concrete pads to stabilize the receptacles. The placement of these cans will curb litter proliferation and add an element of ownership to the community. The receptacles will be placed in the Oakdale and Hazelwood Areas in District 15.

City Agency: Public Works- Craig Allen / Solid Waste-Steve Fenster

Contact Person: Steve Fenster-574-8116

Agency Phone: Craig Allen-574-6159

I have reviewed this request for an expenditure of city tax dollars, and have determined the funds will be used for a public purpose.

**From:** Fenster, Steve A  
**Sent:** Tuesday, April 29, 2014 12:57 PM  
**To:** Luckett, Daniel R  
**Cc:** Hackett, Keith  
**Subject:** RE: Metal Trash Container cost

12 receptacles @ \$583.00 each would cost \$6,996.00  
\$583.00 is the contract price per unit, installed.

**Sent:** Monday, April 28, 2014 1:58 PM  
**To:** Fenster, Steve A  
**Cc:** Hackett, Keith  
**Subject:** Metal Trash Container cost

Hi Mr. Fenster!

For our paper work, the additional 2 metal trash containers will be \$583.00 each for a total of \$1,166.00. That would bring our total for 12 new metal trash containers (10 – “OAKDALE NEIGHBORHOOD” & 2- “HAZELWOOD NEIGHBORHOOD”) to \$6,996.00. Please let me know, at your convenience, if these totals are correct. Thank you for all your help!

**To:** Akridge, John L  
**Subject:** Concrete pads

Hi John!

Per our conversation, the new total cost for the now 10 – 3 x 3 concrete pads for the new metal trash containers from SWMS is \$743.40. Thank you for your help!

**To:** Allen, Craig L; Fenster, Steve A  
**Cc:** Lockett, Daniel R  
**Subject:** FW: Oakdale Trash Containers

Mr. Allen and Mr. Fenster. By receipt of this message, please move forward with the plan, development and/or process of installing the concrete pads for placement of the trash receptacle for the District 15 project. I understand the receptacles cannot be ordered until funding is received. I am in the process of submitting the required paperwork.

Please contact myself or Dan Lockett if there are any questions regarding this project. I believe Mr. Lockett has spoken several times to you Mr. Fenster as well as Mr. Akridge with Public Works.

**To:** Akridge, John L  
**Subject:** FW: Oakdale Trash Containers

Hi John!

Did you have a chance to inquire about pouring the pads below for our Trash Containers? If Public Works will, I need an estimate before any work is authorized. We did something similar to this on Queen Ave in 2010 through TARC, however after speaking to Mark Adams of TARC they do not have a contractor to do this work for all of 2014. Thank you Sir!

**To:** Lockett, Daniel R  
**Cc:** Hackett, Keith  
**Subject:** RE: Oakdale Trash Containers

Daniel,  
The price is for an install on an existing concrete base. They don't pour bases. This would have to be done by some other vendor or agency. We do not handle those requests.

**To:** Fenster, Steve A  
**Cc:** Hackett, Keith  
**Subject:** Oakdale Trash Containers

Mr. Fenster,

Here is our District 15 list for requested Trash containers for the Oakdale Neighborhood. Per our prior conversation I want to be sure these containers cost \$583.00 per container, installed with a concrete base & "OAKDALE NEIGHBORHOOD" on each one? That total would then be \$5830.00. If this is all correct then please email me back and I will start the process for the appropriation.

Below is the list of trash container locations and the notes from Public Works (John Akridge/303-0250 or [john.akridge@louisvilleky.gov](mailto:john.akridge@louisvilleky.gov) ) They inspected each area and made the suggestions you, see for the contractor. Per Public Works, No permits are needed. Thank you for all your help!

- 1.) 5<sup>th</sup> Street at Evelyn Ave – the S.W. corner, at the empty lot. Should be OK with pad

- 2.) 5<sup>th</sup> Street at W. Whitney Ave – close to the TARC sign at 4101 S. 5<sup>th</sup> Street. Should be able to place on existing boarding pad opposite end from FH.
- 3.) 5<sup>th</sup> Street at Kenton Street – close to the TARC sign at 3901 5<sup>th</sup> Street not much room on 5<sup>th</sup> street with utility covers, may be able to place on Kenton side with pad.
- 4.) Longfield Ave at Bellevue Ave – at 716 Longfield Ave. Should be OK, will need pad.
- 5.) Longfield Ave at Cliff Ave – at 900 Longfield Ave. This one looks tight with ROW but I think it can be done w/ a pad built behind sidewalk.
- 6.) Beecher Street at Warren Ave – S.W. corner, at Wyandotte Park. Should be OK will need a pad.
- 7.) Beecher Street at Peachtree Ave – at 1031 Beecher Street. Appears to be room on Peachtree side will need pad
- 8.) Camden Ave at Bellevue Ave – at church lot, replacing Metro wire trash basket there now. Didn't see existing, but should be OK with PAD.
- 9.) Henry Ave at Hathaway Ave – close to stop sign, at empty lot across from MBS. Should be OK will need pad.
- 10.) Dresden Ave at Warren Ave – N.E. corner behind the sidewalk O.K. with a pad

**Subject:** 2 additional trash can locations

John,

At your convenience can you inspect 2 additional locations for Metro Trash Containers? The Councilwoman is requesting them.

- 1.) The intersection at Cayuga Street, Bicknell Ave & Hazelwood Ave Should be able to place on existing concrete NE side.
- 2.) Bicknell Ave & Wheeler Ave Room on SE corner will need a pad.

I have not inspected this area for can locations, however just let me know what you think is best and if it needs a concrete pad. Thank you for all your help!
