

Board of Zoning Adjustment

Staff Report

January 13, 2014

Case No:	13Variance1055
Request:	Variance, Waivers
Project Name:	Kroger Fuel Station
Location:	4946 US Hwy. 42
Owner:	Swifty Oil Co., Inc.
Applicant:	Kroger Mid-South Division
Representative:	Heritage Engineering, LLC.
Jurisdiction:	Louisville Metro
Council District:	7 – Tina Ward Pugh
Case Manager:	Latondra Yates, Planner II

REQUEST

- Variance of Section 5.2.4.C.3.a. of the Land Development Code (LDC) to allow the proposed fuel station to exceed the maximum 15-ft. setback;
- Waiver of Sec. 5.5.1.A.3.a. of the LDC to allow the proposed canopy and drive lanes to be located in front of the principle structure;
- Waiver of Sec. 10.3.5.A.1., Table 10.3.1 of the LDC to reduce the required 30-ft. Parkway Buffer along Hwy. 42 to 5 ft. and to not provide the required 3-ft. berm;
- Waiver of Sec. 10.3.5.A.1, Table 10.3.1 of the LDC to reduce the required 15-ft. Parkway Buffer along Holiday Manor Center from 15 ft. to 5 ft. and to not provide the required 3-ft. berm.

Variance

Location	Requirement	Request	Variance
Proposed fuel station	15 ft.	34.3 ft.	19.3 ft.

CASE SUMMARY/BACKGROUND/SITE CONTEXT

Demolition of the existing fuel station and construction of a more modern fuel center with a kiosk is proposed.

LAND USE/ZONING DISTRICT/FORM DISTRICT TABLE

The site is zoned C-1 and in the Town Center (TC) Form District. Holiday Manor is to the north and east. The site transitions to the Neighborhood Form District (NFD) to the west, across Hwy. 42, where there are residential subdivisions. There is a bank to the south, across Holiday Manor Center.

	Land Use	Zoning	Form District
Subject Property			
Existing	Commercial	C-1	TC
Proposed	Commercial	C-1	TC
Surrounding Properties			
North	Commercial	C-1	TC
South	Commercial	C-1	TC
East	Commercial	C-1	TC
West	Single-family residential	R-4	NFD

APPLICABLE PLANS AND POLICIES

Land Development Code
 Cornerstone 2020 Comprehensive Plan- See checklist attached

STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCES

(a) The requested variance will not adversely affect the public health, safety or welfare.

STAFF: The variance will not adversely affect the public health, safety or welfare because the development is proposed in a manner that does not appear to impede sight distance. The circulation and access are also subject to Public Works approval.

(b) The requested variance will not alter the essential character of the general vicinity.

STAFF: The variance not will alter the essential character of the general vicinity because the site is currently used as a gas station.

(c) The requested variance will not cause a hazard or nuisance to the public.

STAFF: The variance will not cause a hazard or nuisance to the public because the development is proposed in a manner that does not appear to impede sight distance. The circulation and access are also subject to Public Works approval. The development will also be buffered from adjacent residential through providing the required plantings.

(d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.

STAFF: The variance will not allow an unreasonable circumvention of the zoning regulations given the limited lot area and that it is already being used as a gas station.

ADDITIONAL CONSIDERATIONS:

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone.

STAFF: The variance arises from the limited lot area and use of the lot as a fuel station.

2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship because the lot is currently used as a gas station; and the applicant proposes to update the lot with a more modern fuel center.

3. The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances are the result of the proposed development.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVERS

- Waiver of Sec. 5.5.1.A.3.a. of the LDC to allow the proposed canopy and drive lanes to be located in front of the principle structure;

(a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waiver will not adversely affect adjoining property owners because of the similar commercial nature of adjacent properties to the north, south and east. Residential development to the west will be buffered through providing the required plantings.

(b) The waiver will not violate specific guidelines of Cornerstone 2020.

STAFF: The waiver meets the applicable guidelines of Cornerstone 2020.

(c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant

STAFF: The waiver is the minimum necessary to afford relief to the applicant because of the relatively small size of the lot for use as a fuel station and the fact that the lot is currently used as one.

(d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect);

OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would not deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant because of the relatively small size of the lot for use as a fuel station and the fact that the lot is currently used as one.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR WAIVERS

- Waiver of Sec. 10.3.5.A.1., Table 10.3.1 of the LDC to reduce the required 30-ft. Parkway Buffer along Hwy. 42 to 5 ft.;
- Waiver of Sec. 10.3.5.A.1, Table 10.3.1 of the LDC to reduce the required 15-ft. Parkway Buffer along Holiday Manor Center from 15 ft. to 5 ft.

(a) The waiver will not adversely affect adjacent property owners; and

STAFF: The waivers will not adversely affect adjoining property owners because the required plantings will be provided. However, providing the required buffer widths and berthing would improve screening.

(b) The waiver will not violate specific guidelines of Cornerstone 2020.

STAFF: The waivers violate some of the compatibility guidelines of Cornerstone 2020. Providing the required buffer widths and berthing would improve screening. However, the required plantings are proposed within the buffers.

(c) The extent of the waiver of the regulation is the minimum necessary to afford relief to the applicant

STAFF: The waivers appear to be the minimum necessary to afford relief to the applicant given limited lot area and the proposed use.

(d) Either:

(i) The applicant has incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect);

OR

(ii) The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant because of the relatively small lot size and fact that it is currently used as a gas station.

TECHNICAL REVIEW

No outstanding technical review items

STAFF CONCLUSIONS

The variance and waivers meet 17 of the applicable guidelines of the Comprehensive Plan. Redevelopment of an existing commercial outlet that is located along a major thoroughfare is proposed. Access will be shared with adjacent commercial development and the site will be served by mass transit and sidewalks. The proposed building materials appear to be compatible with surrounding buildings.

The variance and waivers violate 6 of the guidelines. The proposed building exceeds the required setback, but appears to be compatible with others in the area. Waivers to significantly reduce the parkway buffers and eliminate the berm are requested. However, the required plantings are proposed within the buffers.

Six of the guidelines can be addressed during construction review, including submittal of lighting and signage details.

Staff's analysis of the standards of review support the granting of the variance.

Staff's analysis of the standards of review support the granting of the waiver to allow the proposed canopy and drive lanes to be located in front of the principle structure.

The waivers to reduce the required parkway buffers and eliminate the required berms meet some but not all of the standards of review for granting per staff's analysis on Page 5 of the staff report.

Based upon the information in the staff report, testimony and evidence provided, the Board of Zoning Adjustment must determine if the proposal meets the standards for approval of a variance and waivers established in the Land Development Code.

Re: Variance Request – Letter of Explanation

Dear Staff:

On behalf of the Kroger Company we are submitting the attached Variance Request for a proposed Fuel Center on a 0.355 acre parcel located at 4942 US Hwy 42.

Site improvements include demolition of an outdated fuel center and construction of a modern Kroger Fuel Center with a Kiosk for payment and purchase of sundries and general merchandise. Construction of the fuel center is subject to a variance from Chapter 5, Part 2, Section 5.2.4.C.3.a and Chapter 10, Part 3, Section 10.3.5.A.1 – Table 10.3.1 of the Land Development Code. The requested variance will allow the proposed structures (Kroger Fuel Center with Kiosk) to be located with a greater maximum setback than permitted per code. Landscape plantings will be provided to comply with code.

Justifications for the requested variances are:

- The requested variance will not adversely affect the public health, safety or welfare because granting of the variance will allow for reconstruction of an outdated fuel center to a clean and modern fuel center to be operated by Kroger, a recognized grocery chain that will both operate and maintain the facility to ensure the facility is a community asset.
- The variance requested will not alter the essential character of the general vicinity as the proposed building setback will be compatible with nearby businesses while implementing the high standards of design associated with the Kroger grocery chain. In addition to being an anchor use for the nearby community who use the existing Kroger grocery, the property will be enhanced with landscape plantings as required for the subject property.
- Granting of the variance will not cause a hazard or a nuisance to the public as the proposed fuel center will update a currently outdated fuel center while enhancing both the corridor of Hwy 42 with a modern, clean and well maintained facility and provide a service to Kroger grocery customers.
- The development as proposed with the requested variance will not allow for an unreasonable circumvention of the zoning regulations as it will allow for the property to be rebuilt with a modern new facility that would otherwise not occur due to the general location of the property and limited uses that could occur on subject property.

In addition to the justification as defined, please also take into consideration:

- The subject property is impacted by special circumstances such as the generally small parcel size associated with an outdated fuel center that was constructed prior to adoption of the current Land Development Code.
- Strict application of the provisions would limit the reuse of the property and not allow for a modern fuel center to be constructed.
- The proposed redevelopment of the property and need for the variance is not a result of actions taken by the applicant as the existing property was developed prior to the adoption of the Land Development Code and limits potential reuse of the property to a community serving establishment.

Thank you for your consideration; please advise us immediately if any additional information is needed.

Sincerely,

John Campbell

Re: Waiver Request – Letter of Explanation

Dear Staff:

On behalf of the Kroger Company we are submitting the attached waiver request for a proposed Fuel Center on a 0.355 acre parcel located at 4942 US Hwy 42.

Site improvements include demolition of an outdated fuel center and construction of a modern Kroger Fuel Center with a Kiosk for payment and purchase of sundries and general merchandise. Construction of the fuel center is subject to a waiver request from Chapter 5, Part 5, Section 5.5.1.A.3.a and Chapter 10, Part 3, Section 10.3.5.A.1 – Table 10.3.1 of the Land Development Code. The requested waivers will allow the proposed canopy and vehicle maneuvering areas to be located in front of the principle structure and allow for adequate onsite vehicle maneuvering.

Justifications for the requested waivers are:

- The requested waivers will not adversely affect adjacent property owners because granting of the waiver will allow for reconstruction of an outdated fuel center to a clean and modern fuel center to be operated by Kroger, a recognized grocery chain. As part of reconstruction, landscaping will be installed along Brownsboro Road where no landscaping currently exist today.
- The waiver requested will not violate the Comprehensive Plan as it will not alter the essential character of the general vicinity as the proposed building setback will be compatible with nearby businesses while implementing the high standards of design associated with the Kroger grocery chain. In addition to being an anchor use for the nearby community who use the existing Kroger grocery, the property will be enhanced with landscape plantings as required for the subject property.
- Granting of the waivers is the minimum necessary to afford relief to the applicant as the proposed fuel center will still allow for the property to be enhanced with landscape planting as required for the subject property while improving a currently outdated and closed fuel center with enhancements of the Hwy 42 corridor with a modern, clean and well maintained facility and provide a service to Kroger grocery customers.

- The development as proposed with the requested waivers will allow for the property to be rebuilt with a modern new facility that would otherwise not occur due to the general location of the property and limited uses the could occur on subject property. In addition strict application of the provisions would limit the reuse of the property and not allow for a modern fuel center to be constructed.

Thank you for your consideration; please advise us immediately if any additional information is needed.

Sincerely,

John Campbell
