Paving Fund (PAV)

Primary Sponsor: Councilwoman Dr. Barbara Shanklin

Amount: ~~\$14,270.00~~ \$10,850.00 **Date:** 11/03/2021

Description of program/project including public purpose, additional funding sources, location of project/program and any external grantee(s):
Funding of ~~\$14,270.00~~ from D-2 CIF to Public Works and Assets to cover the balance that remains to be paid for several speed hump projects in D-2. The total cost of the projects is \$98,850; however, most of this is being covered by funding already allocated from D-2 to Public Works specifically for speed hump projects. The ~~\$14,270~~ in CIF funding is to cover the cost that remains after this already allocated funding is exhausted.

Caleb, see comments below. You will need to ask for an amendment today to reduce the request from \$14,270 to \$10,850. Please feel free to use this as documentation for the amendment. LaTonya will have this in her comments to the Appropriations Committee.

Perfect! Thank you.

With that said, I think the CIF for \$14,270 being considered in Appropriations Committee today is too much. There were basically 3 pots of funding \$50K, \$19K and \$19K totaling \$88,000 and total projects were \$98,850, therefore only \$10,850 is needed. It appears you forgot about the \$3,260 left in the account you used for Forest Dr and Green Valley Rd and the \$160 left in \$50K account when you told Caleb how much additional funding was needed. See below:

	11/16/2021				
Speed Humps in 12 D2 locations:					
1	\$11,020.00	Forest Drive - 5 humps + 2 signs			
2	\$4,720.00	Glen Valley Rd - 2 humps + 2 signs			
3	\$6,820.00	Melda Lane - 3 humps + 2 signs			
4	\$8,920.00	Retreat Road - 4 humps + 2 signs			
5	\$11,540.00	Ridgecrest Rd - 5 humps + 4 signs			
6	\$13,640.00	Silverleaf Dr - 6 humps + 4 signs			
		Spicewood Ln			
7	\$2,850.00	Petersburg Rd - 1 speed hump			
8	\$8,920.00	Regal Drive - 4 humps + 2 signs			
9	\$9,440.00	Rosette Blvd - 4 humps + 4 signs			
10	\$16,260.00	Forest Drive between Forest Dr and E. Indian Trail			
11	\$4,720.00	Carolyn Way			
	-				
	\$98,850.00	Total Speed Humps			

And we have these accounts:

8148 410 8107 148567 821344	D02 Speed Humps	50,000.00	0.00	0.00	50,000.00	FY22 GO BOND	funds 3, 4, 5, 6, 8 with \$160 left

8146 410 8210 149102 812344	D2 Neighborhood Speed Reduction Program	19,000.00	0.00	0.00	19,000.00	FY21 GOBOND	Funds 1 and 2 with \$3,260 left

#10 is to be charged to:

\$160 from the \$50K above
 \$1,990 from the first \$19K above
 \$3,260 from the second \$19K above
\$10,850 from new CIF

\$16,260 total needed for Forest Dr.

Agree?

I need to know asap since appropriations committee is this afternoon and I think we need to amend the request down.

Thank you Mr. Dow!

According to this, I will be writing up a CIF for \$14,270 to complete our speed hump projects this year. I will aim to get that paperwork turned in this coming Wednesday so it meets the next Appropriations deadline (Nov. 8).

Additionally, I will be dropping off a new signature sheet for Naomi Dr. to you that same day. I will drop it by your office as I have done in the past. Dr. Shanklin and I realize that this one will not be included in this round of projects, but we wanted to make sure to get it turned in so that it can go ahead and get in line to be done in the future.

Will you please respond to this email verifying that Public Works will be willing to accept \$14,270 in D-2 CIF to complete the funding of this year's speed hump projects for documentation purposes?

Good morning Mr. Dow,

I just wanted to check back in with you regarding the funding of the multiple speed hump projects we've got going on in D-2. Did the funding that had been restricted ever get unrestricted so that you can utilize it for these projects? I know that a few weeks ago Dr. Shanklin spoke to Mr. Brown to ensure that this happened, but I hadn't heard back on whether or not it did.

If so, the last figure I had from those three separate accounts all together was \$88,000 for speed humps/signage. Assuming this has all been unrestricted, my figures show that an additional \$10,850 will be necessary to complete all of the projects (all projects added up come to \$98,850 total). Does this all sound correct, and if so, are you ready/willing to receive a CIF in the amount of \$10,850 so that these projects will all be completely funded?

Dr. Shanklin wants to make sure that you have all of the funding that you need to get these projects completed, and as another Appropriations deadline approaches for the Metro Council, we want to make sure you get the funding you need for them as soon as possible.

Thank you,

In terms of speed hump installation being completed for all the streets before the weather changes, I highly doubt it!

Hi Mr. Dow,

Thank you for sending these last couple estimates along.

Based upon these estimates, as well as the previous spreadsheet of costs for all of the speed hump projects we're doing right now in D-2 from Beth a few weeks ago (which amounted to \$77,870), we have \$98,850 in total cost for the projects. Also, again based upon the email with the spreadsheet, we have \$88,000 already available from 3 different accounts for speed humps and signage. If this is all correct, that means that we still have to fund \$10,850 additional via CIF for the remainder necessary to complete the projects.

1. Beth/Greg: Do these figures sound correct? If so, I will try and write up a CIF by the end of the week in the amount of \$10,850 to PW for the remaining cost.
2. Greg: The CIF/appropriations process will take a little time to work through the system, as you know. Since a majority of the money necessary for the projects is already available, will you be able to schedule all of the projects to be done now or will we have to wait for the CIF money to get to PW for the remaining costs before the last few projects can be started? We are hopeful that they can all be scheduled relatively close together, if at all possible.

Thank you for your help,

Hi Mr. Brown/Mr. Bradley,

Just checking back in to see if getting these funds unrestricted was successful!

Thanks,

Mr. Brown and Mr. Bradley:

Can you all work with Mr. Dow in order to get these funds unrestricted please? These funds are integral to Mr. Dow being able to complete D-2's speed hump projects, and I cannot get Mr. Dow any additional necessary funding not covered by these three accounts until we know exactly how much will not be covered by existing funding.

Thank you,

Good morning Mr. Dow,

I just wanted to check back in with you regarding the funding of the multiple speed hump projects we've got going on in D-2. Did the funding that had been restricted ever get unrestricted so that you can utilize it for these projects? I know that a few weeks ago Dr. Shanklin spoke to Mr. Brown to ensure that this happened, but I hadn't heard back on whether or not it did.

If so, the last figure I had from those three separate accounts all together was \$88,000 for speed humps/signage. Assuming this has all been unrestricted, my figures show that an additional \$10,850 will be necessary to complete all of the projects (all projects added up come to \$98,850 total). Does this all sound correct, and if so, are you ready/willing to receive a CIF in the amount of \$10,850 so that these projects will all be completely funded?

Dr. Shanklin wants to make sure that you have all of the funding that you need to get these projects completed, and as another Appropriations deadline approaches for the Metro Council, we want to make sure you get the funding you need for them as soon as possible.

Thank you,

Caleb,

If I'm not mistaken, I believe majority of the funding is still restricted based on an earlier email and so I can't readily utilize the remaining funding. Once the funding has been unrestricted, I will move forward and request PO#s based on your priority.

In terms of speed hump installation being completed for all the streets before the weather changes, I highly doubt it!

Hi Mr. Dow,

Thank you for sending these last couple estimates along.

Based upon these estimates, as well as the previous spreadsheet of costs for all of the speed hump projects we're doing right now in D-2 from Beth a few weeks ago (which amounted to \$77,870), we have \$98,850 in total cost for the projects. Also, again based upon the email with the spreadsheet, we have \$88,000 already available from 3 different accounts for speed humps and signage. If this is all correct, that means that we still have to fund \$10,850 additional via CIF for the remainder necessary to complete the projects.

1. Beth/Greg: Do these figures sound correct? If so, I will try and write up a CIF by the end of the week in the amount of \$10,850 to PW for the remaining cost.

2. Greg: The CIF/appropriations process will take a little time to work through the system, as you know. Since a majority of the money necessary for the projects is already available, will you be able to schedule all of the projects to be done now or will we have to wait for the CIF money to get to PW for the remaining costs before the last few projects can be started? We are hopeful that they can all be scheduled relatively close together, if at all possible.

Thank you for your help,
