

General Waiver Justification:

* In order to justify approval of any waiver, the Planning Commission or Board of Zoning Adjustment considers four criteria. Please answer all of the following questions. Use additional sheets if needed. A response of yes, no, or N/A is not acceptable.

* 1. **Will the waiver adversely affect adjacent property owners?**

The property at 6100 Moorman Rd is located 189' from the location of the d/f sign. This property is Residential but being used as a non-residential purpose as is a church. The property across the street at 11800 Dixie Hwy is 218.8' from the sign location to the corner of the property at Flowervale. The 300' viewing distance would be 82' going south on Dixie on that same property. Approximate distance from the pole sign to 11801 E Orell Rd is 517' and to 11805 E Orell Rd, distance is 579'.

* 2. **Will the waiver violate the Comprehensive Plan?**

The waiver will not violate the comprehensive plan.

* 3. **Is extent of waiver of the regulation the minimum necessary to afford relief to the applicant?**

The waiver has been minimized as it is located at the existing sign location of the site and therefore is not intended to exacerbate conditions by selecting a new sign location - this will allow us to utilize the existing steel pole that is in place currently for the sign.

* 4. **Has either (a) the applicant incorporated other design measures that exceed the minimums of the district and compensate for non-compliance with the requirements to be waived (net beneficial effect) or would (b) the strict application of the provisions of the regulation deprive the applicant of the reasonable use of the land or would create an unnecessary hardship on the applicant?**

The electronic message center sign will have automatic dimming capabilities to promote responsibility during dark periods.
