

Louisville Metro Council City Agency Request
Neighborhood Development Fund (NDF)
 ■ **Capital Infrastructure Fund (CIF)**
Municipal Aid Program (MAP)
Paving Fund (PAV)

Primary Sponsor: Rick Blackwell

Amount: \$9,712.52 **Date:** 6/26/2019

Description of program/project including public purpose, additional funding sources, location of project/program and any external grantee(s):
 Installation of TARC bus stop improvements at two locations. Funding is an 80/20 match with ATRC. Terry Road & Greenbelt road will have new TARC shelter, trash receptacle, sidewalk extension and boarding area. District 12 portion is 20% - \$5,870.11. 6001 Cane Run Road includes installation of new pad, sidewalk, shelter, and trash receptacle. District 12 portion is \$3,842.41.

City Agency: Public Works
Contact Person: Mojgan Taghizadeh
Agency Phone: 502.574.3873

I have reviewed this request for an expenditure of city tax dollars, and have determined the funds will be used for a public purpose and have the attached documentation from the receiving department concerning the project/expenditure.

Hi Liz – I just sent you a copy of the email to Wolverine Worldwide. This Riverport Company reached out to us about the need for a shelter.

At that time we were unable to commit because of other projects. We are now ready to move forward and I have asked Wolverine Worldwide if the shelter is still being requested by them.

Assuming we will move forward with both projects the, District 12 match would be as follows:

- Grandel Farms – District 12 / 20% match = \$5,870
- Wolverine Worldwide – District 12 / 20% match = \$3,842

Total match = \$ 9,712

Thanks,

Mark Adams, P.E.

Good Morning Mark –

So our District 12 cost would be \$5,870.11, correct? Let me check with Councilman Blackwell to confirm he still wants to fund.

Thank you,
Liz McQuillen

Hello Danielle / Liz – I have just updated the cost estimate for our Grandel Farms shelter improvement.

I just want to make sure you are still able to cover the 20%. I have another shelter request I'll send over later today.

Thanks,
Mark

Hello Mr. Lamkin – Good talking to you last week. The Contractor will be starting construction this week and the actual shelter installation will be later this year.

Thanks again,
Mark

Hi Mr. Lampkin - It was good meeting you on-site as well yesterday. I will work on a cost estimate and the proposed schedule.

I appreciate the Board's willingness to empty the trash receptacle and to keep the shelter clean. TARC is able to provide cleaning on a weekly basis, but we have found that is normally not sufficient.

Thanks again,
Mark

Subject: Grandel Farms Neighborhood - Shelter Request

Hello Aida – I have been in contact with Danielle @ CM Blackwell's about this same location. I have project meeting with the HOA President next Wednesday @ 10:00. They would like a shelter similar the one we installed @ PRP High School.

We can make this work, but we'll need to work out the cost of an additional open shelter, sidewalk extension and boarding area.

I'll know more after meeting on site.

Thanks,
Mark

Hello Mark,

I believe that is the correct location, however Mrs. Lampkin with the neighborhood board would be able to give a definitive answer. Her number is (502) 447-6483. The association can also be reached by email at Roehrig@bellsouth.net or Gfrabod@gmail.com. Thank you for your help!

Thank you,

Danielle Tackett

Hi Danielle – Is this the location CM Blackwell is requesting? I will need to inspect the site and get back with you.

Please send me the contact name and number for the Grandel Farms Neighborhood Board President.

Thanks,
Mark

Subject: Grandel Farms Tarc Stop Shelter

Good afternoon,

Councilman Blackwell attended the most recent Grandel Farms neighborhood board meeting where they expressed a desire to add a shelter to their existing TARC stop northeast of Terry Rd. and Grandel Blvd intersection. Previously, Councilman Blackwell helped add one in front of PRP and the cost was split 80-20. Would this be possible? Please let me know any information you may have concerning this potential project.

Thank you,
Danielle Tackett
