Kathy,

I discussed this naming issue with Highview Fire and below is their response. Is there any way the eyebrow can be shifted more to the southeast between lots 6 and 7 as Chief Dwyer suggests? Not sure if the detention basin location will cause issues with this proposal or not – can the detention basin location be shifted to accommodate?

I totally understand the developers issues and we are willing to work with them. Both of those streets have residents that have been there a long time and should not have to change their street name. My only wish would be that the “eyebrow” be more in the curve if possible because it would look as if the street changes there (Lots 6-8)

Deputy Chief Rob Dwyer

Kathy,

I sent to Highview Fire this morning for their review. I'll let you know when I hear back. Thank you.

Beth,

With Ron out can you forward this for consideration by the local fire district next week?

Ron,

Just realized I never forwarded this to you after our conversation. I was asking if a street name change could be approved at what I call an eyebrow. Please see attached in red. These are 2 existing streets that would be connected with this development and looking for way to transition from one street name to the other. Thanks!

Kind regards,
