

Louisville Metro Council City Agency Request
Neighborhood Development Fund (NDF)
 ■ **Capital Infrastructure Fund (CIF)**
Municipal Aid Program (MAP)
Paving Fund (PAV)

Primary Sponsor: President David Yates

Amount: \$2,900.00 **Date:** Oct 27, 2016

Description of program/project including public purpose, additional funding sources, location of project/program and any external grantee(s):

Erection of 5 highway barriers placed along the entrance bridge of the Sand Pit located nearest to Sand Pit Lane and 5101 Woodridge Lake Boulevard.

The entrance is constantly trafficked by ATVs and dirt bikes. The erection of the barriers will limit access for these activities and will help preserve the neighborhood immediately abutting this area.

City Agency: Parks & Recreation
Contact Person: Marty Storch
Agency Phone: 502-456-8176

I have reviewed this request for an expenditure of city tax dollars, and have determined the funds will be used for a public purpose and have the attached documentation from the receiving department concerning the project/expenditure.

25		\$2,900.00	10/31/16

Brian,

Please see the attached pictures. We'll put these on the bridge and look to go 3 high. If, after installing them, we feel that 3 high is not a safe approach we will reserve the right to go back to two. But we will see how that goes.

So that would require 5 more blocks delivered. If you need any additional information regarding that purchase, Jim can work to provide it.

I want to acknowledge all that Jim has done to try to work through this issue. And we certainly we appreciate your all's assistance is getting set up. I believe that once this is in place, we will must say that we've done about all that we can to resolve this issue.

Sincerely,

-Bennett

The backhoe does move the barriers i would say stay with this size. See attached picture. So 5 more will do the trick.

Jim,

Just to confirm, we would like to construct as pictured in the attached drawing. Can we go 3 high? If so we will need 5 more, so \$2,900.

If we cannot go 3 high please let me know. After viewing them in person anyone could easily jump over the blocks. We want to block pedestrians as well as bikes and atvs.

I need to submit by Monday at noon to meet the deadline otherwise we have to wait another two weeks.

Thank you,

Brian Boles

Brian,

There should be plenty of space, I know Bennett had mentioned to me he didn't want three high due to safety concerns. Plus also remember this will remove any access from this point for Police and Fire or EMS services someone be in that area and injured or fire. It takes heavy equipment to move each block that weight 3800

Follow Up Flag: Follow up
Flag Status: Completed

Brian,

There should be plenty of space, I know Bennett had mentioned to me he didn't want three high due to safety concerns. Plus also remember this will remove any access from this point for Police and Fire or EMS services someone be in that area and injured or fire. It takes heavy equipment to move each block that weight 3800 lbs. We do not have equipment that will move these in our division.. So you decide what your wanting and where and you have the quote from the first order and you just add the cost in plus setup and delivery.

So I will await a PO number and then I will have to order the barriers and await a time the vendor can do the setup. The day of deliver this time if Brian and a representative from Woodridge can be onsite to make the decision of how they want them set.

Thanks

Jim,

Our office wants to help Woodridge Lake and I appreciate all of your help so far. Can you please answer the following questions regarding further installation of the barriers?

Subject: RE: Sandpit bridge area

This breaks down to 4 barriers at \$400 each (\$1600) and \$900 for delivery and the equipment and manpower to move them in place and stack them. Thos would be done by a current metro vendor.

Thank you Jimmy. I have literally never heard of this so far and greatly appreciate the information.

Before President Yates funds, Michelle and Bonnie please let me know if you think this would help curb the traffic or would just shift it.

Jimmy, what is the \$2,500 break down for? That will be President Yates' First question.

Thank you,
