

CIF022322PW15

Louisville Metro Council City Agency Request
Neighborhood Development Fund (NDF)
■ Capital Infrastructure Fund (CIF)
Municipal Aid Program (MAP)
Paving Fund (PAV)

Primary Sponsor: Kevin Triplett

Amount: \$9,394.30

Date: Jan 26, 2022

Description of program/project including public purpose, additional funding sources, location of project/program and any external grantee(s):

This request will fund 2 solar feedback signs-to be placed on roadways to curtail speeding. Signs are placed on poles and this cost will cover signs and installation.

City Agency: Public Works and Assets

Contact Person: Stuart Sparks

Agency Phone: 574-3650

I have reviewed this request for an expenditure of city tax dollars, and have determined the funds will be used for a public purpose and have the attached documentation from the receiving department concerning the project/expenditure.

You are correct. Traffic Eng will have to inform them we are installing EV. TE will propose locations and send to Council's office for review and approval.

Subject: RE: driver feedback signs

So, what I'm reading (please correct me if I'm wrong) is the following:

$\$8,152.00 + \$345.70 + \$366.60 = \$8,864.30$ PLUS $\$265 \times \text{TWO}$ for installation of two poles = $\$530.00 + \$8,864.30 = 9,394.30$

On this \$366.60 charge is states - Please specify which model this is mounting EV
or

SP Is this for you all? So, if I correct I need to appropriate \$9,394.30 for two Driver feedback signs to go on Hazelwood Ave. (Exact locations to be determined by P.W. & Metro Council D-15)

Subject: RE: driver feedback signs

Quote is before and after March 1 . It is unlikely we will be able to meet the March 1 deadline so the second half of the quote is what to look at. Also, we charge \$265 to install each sign.

Good afternoon!

Ok, the Councilman is on board. We want to get the estimate for a pair of these Driver Feed Back Signs. Once you have that too me we will go from there. Thank you!

Subject: RE: driver feedback signs

The cost for a pair installed starts at apx \$7200. I was told the cost went up as of January 1st by over 30%. So, now, I believe they will cost apx \$9,050 for a pair installed. I can ask for a quote for a pair if you would like.

Stuart,
What's the current cost for the solar driver feedback signs?
