To Whom It May Concern,

I am writing to you today to address a situation that has recently been brought to my attention. The matter involves a resident of the Watterson Heights Neighborhood, located between the intersection of Watterson Trail and Nachand Lane. About a month ago I received a phone call from Scott Spence who lives at 7700 Roswell Way. During the call Scott explained that a complaint had been made to Metro Government about a fence he had installed surrounding his property and that his fence installation had violated a code. I was quite surprised to hear this information since after the installation of the fence both my wife and I had remarked how nice and attractive the fence was.

The fence has enhanced the property and appears to be no obstruction of viewing for any vehicles traveling on Nachand Lane or any vehicles entering onto Nachand Lane from Roswell Way. As President of the Watterson Heights Neighborhood Association the topic of Scott Spence's fence was brought up at our recent General Body Meeting on November 14, 2017. The General Body was asked if there were any objections or concerns about the fence or its location on the property. The response was much like mine that the fence had enhanced the property and caused no problems with traffic safety or any other public concern. There were no objections stated by the members of the General Body nor the Executive Board. At this point I am appealing that the opinions of the residents of our Neighborhood be considered when making any decisions concerning Mr Spence's fence.

I thank you for your time and I hope that you will consider the opinions of the residents of our Neighborhood. If you have any questions concerning this matter I may be reached by phone at 502 235-8777 or by email at lymanhunt49@yahoo.com.

Respectfully,

Lyman Hunt
President

Watterson Heights Neighborhood Association
