Hello Councilman James,

Have you had a chance to check on funding for this project?

Thanks,

Rolf

Hello Councilman James,

My contractor let me know that they just replaced the post on 4th Street. Also our consultant said it would cost \$944 for them to look into the 4th St Viaduct project. Do you have any extra funds to get them started, or would you like me to look into using some of our Urban Bike Network funding?

Below are the post meeting notes from the site visit:

Meeting Notes

At the request of Councilman James, we met at the 4th Street Viaduct to investigate drainage and lighting, associated with safety concerns in the sidewalk and bike lanes.

Hello Councilman James,

Last Friday I met with one of our engineering consultants on site about this project. They are planning on providing a cost that would cover an initial assessment. I will let you know how much this will be to get them started. Depending on the cost, I might be able to cover it with our Urban Bike Network fund. Just wanted to give you an update.

Also, I provided our post contractor notice to proceed with replacing the posts under the via duct. I am hoping they will have these missing posts replaced within two weeks.

Thanks,

Rolf

Hello Councilman,

This project has been a tough one that I haven't received much feedback on yet. I will keep pushing it along and hope to have a meeting with one of our consults to look into next week. I hope to have a couple of solutions and cost estimates in a few weeks.

I will keep you in the loop about my progress.

Rolf
