

2020

OUR IMPACT

NTI Academy

We've often referred to Neighborhood House as a home-away-from-home; last year we became a school-away-from-school for **41** kids learning virtually. Together they represented **18** JCPS schools.

Our team managed **41** different schedules and classroom requirements, helped kids with technology and provided homework help, all while staying in communication with teachers and parents. We asked them to step into the role of educator, coach, liaison and counselor, and they did so without knowing what the future would hold.

Food

Distributed **2,499** emergency food boxes.
Served more than **50,000 meals**.

Seniors

We stayed connected with **82** of our **Four Seasons** senior citizens through care packages, meal deliveries, special holiday deliveries, and frequent check-in calls from our staff.

Families

Our family activities facilitated **171** positive interactions between a child and their primary caregiver.

Early Childhood and Childcare

Our **Child Development Center** provided exceptional care and early childhood education to **78** children.

100 percent of our pre-school graduates started Kindergarten ready to learn.

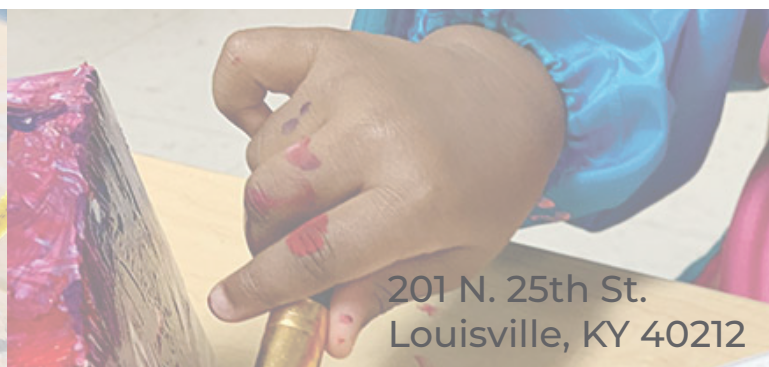

We became a **Head Start** provider, allowing us to provide even more wrap-around services to children and families.

We formed the **Circle of Changemakers** - a dedicated group pledging to support Neighborhood House each month with a recurring gift, allowing them to plan their giving and space it out over time.

How you can help

The world looks very different now than it did at the beginning of 2020. Though filled with unforeseen challenges, there have been so many times that the generosity of others has stopped us in our tracks. If you would like to support our work with a monetary gift, you can do so online at nhky.org/donate.
