

PROJECT TITLE: Minors Lane Road Widening

DESCRIPTION: Complete the 3-lane improvements necessary to accommodate truck traffic on the remaining unimproved sections of Minors Lane, in accordance with Metro Public Works design standards. Portions of the roadway have already been widened for the development of Tract 19 (Dermody), Tracts 6&7 (Grainger), and Tract 11 (Air Commerce 3). This project represents 2 roadway segments totaling approximately 3,900 linear feet. Included in this project is the renovation/replacement of the Southern Ditch road culvert/bridge necessary to a) support heavy truck traffic and b) elevation change above the 100-year regulatory floodplain.
