

Binding Elements
Hearing Date April 4, 2007

1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee and to the City of Lyndon for review and approval; any changes/additions/alterations not so referred shall not be valid.
2. The development shall not exceed 71,907 square feet of gross floor area.
3. Before any permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit) is requested:
 - a. The development plan must receive full construction approval from Louisville Metro Department of Inspections, Permits and Licenses, Louisville Metro Public Works and the Metropolitan Sewer District.
 - b. Encroachment permits must be obtained from the Kentucky Department of Transportation, Bureau of Highways.
 - c. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a building permit. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter
 - d. A minor plat or legal instrument shall be recorded consolidating the property into one lot. A copy of the recorded instrument shall be submitted to the Division of Planning and Design Services; transmittal of the approved plans to the office responsible for permit issuance will occur only after receipt of said instrument.
4. The site shall be developed in accordance with the woodland protection areas delineated on the site plan, tree preservation plan and related notes. Any modification of the woodland protection area requires notification of adjoining property owners and LD&T action.
5. The applicant shall provide deeds of restriction ensuring that WPAs will be permanently protected in a manner consistent with these binding elements and the approved plan. The form of the deed restrictions shall be approved by Planning Commission counsel. Deed Restrictions must be recorded prior to tree preservation approval. All plans setting out woodland protection areas must contain the following notes:
 - a. Woodland Protection Areas (WPAs) identified on this plan represent portions of the site on which (all existing vegetation; all trees greater than 2" in caliper; selected trees as shown on the plan) shall be permanently preserved. All clearing, grading, and fill activity in these areas must be in keeping with restrictions established at the time of development plan approval. No further clearing, grading, construction or other land disturbing activity shall take place within designated WPAs beyond pruning to improve the general health of the tree or to remove dead or declining trees that may pose a public health and safety threat. As trees are lost thru natural causes new trees shall be planted in order to maintain minimum tree canopy as specified in Chapter 10, Part 1 of the LDC and as shown on the approved Tree Canopy/Landscape Plan.
 - b. Dimension lines have been used on this plan to establish the general location of WPAs and represent the minimum boundary of the designated WPAs. The final boundary for each WPA shall be established in the field by the applicant, developer, or property owner to include canopy area of all trees at or within the dimension line.
