Regarding the proposal above, Wolf Pen Preservation Association representatives have met with the developer's attorneys and consultants in addition to representatives from Norton Health Care. WPPA was very pleased to have been brought in prior to any formal application having been submitted.

Our meetings have been very cordial and it would seem that we are all "on the same page" regarding the portions of the plan that would be concerning to WPPA. We just wanted to let you know this prior to the DRC meeting on the 17th.

Alice Gunnison
President
