Thank you so much! We will just use the previously past item and amend that if that's ok with you all.

Thanks again for your help--we are so grateful!

Subject: RE: Tree Removal and Replacement Appropriation

Good Morning Ellen –

Councilman Blackwell approves adding this onto the Appropriations agenda for next week. Will the previously passed item for the removal needed to be reconsidered to add funding for the replacement? Or will this be a separate item?

Thanks,
Liz McQuillen

Subject: Tree Removal and Replacement Appropriation

Dear Councilman Blackwell,

As you may remember, Councilman Lanshima had an appropriation on the agenda at the last meeting to remove some trees on East Esplanade (<https://louisville.legistar.com/View.ashx?M=F&ID=6715203&GUID=F888927F-CA05-40E9-A8AB-D179DEACF1DF>). There was some discussion regarding the replacement of the trees and Councilman Lanshima did want to include that cost in this project. I checked with Erin Thompson on the cost for replacing the trees and she did not include that in the cost for this appropriation (see below email). Councilman Lanshima would like to add that to this appropriation if possible and would like to request that it get on the next Appropriations Committee agenda coming up on December 5th so that he can make that amendment. If that is agreeable to you, we would certainly appreciate it.

Thank you so much for your consideration and assistance with this. We truly appreciate it.

Subject: RE: Tree Removal Cost Estimates for Esplanade (200, 203, and 204)

Ellen-

No, the cost was only for the tree removal work. It was my understanding that CD21 was to have the property owners replace the trees. The cost for a 1.5" caliper tree for replacement with contractor installation is \$312.00. The extra cost for a water bag is \$15.00 but not a requirement for the replacement. Also, a root barrier is not needed to be installed because the green verge is greater than 6 feet in width.

If CD21 will fund the replacements, the costs will change to:

Address	Tree Removal	Tree Replacement	Total Cost
200 E Esplanade Ave	\$ 1920.00	\$ 312.00	\$ 2,232.00
203 E Esplanade Ave	\$ 1920.00	\$ 312.00	\$ 2,232.00
204 E Esplanade Ave	\$ 768.00	\$ 312.00	\$ 1,080.00

If the replacement cost is not fully spent, the remainder will be returned to council.

Please let me know how you wish to proceed.

Thank you, Erin

Subject: RE: Tree Removal Cost Estimates for Esplanade (200, 203, and 204)

Hi Erin,

This was going through appropriations tonight and the question came up about replacing these trees. Does your cost estimate include replacing the trees or will that be extra?

Thanks for your help,

Thanks you! We will get the funding transferred in the coming weeks. We really appreciate your help.

Thanks again!

Hello Ellen-

Attached is the requested cost estimates from the city contractor for the removal of the public right of way trees at 200, 203, and 204 E Esplanade Ave.

If Council District 21 appropriates funds for the specified work, the Division will accept the funds and have the contractor perform the work. The Division is not able to have the work performed prior to receiving the appropriated funds. Be advised, cost estimates are only valid for a limited time period. Before submitting to Appropriations Committee for approval, if there has been a time lapse greater than 60 days since the date of the cost estimate, please contact me to determine if the cost estimate needs to be revised.

Please let me know how else I may assist you.
Thank you, Erin
