

Letter of Explanation for the proposed development.

I have been serving my community in the streets year-round; since May 2017 with some necessary basic needs.

I see the need of having a place to come to for resources.

I am asking to be able to offer a walk-in center for more necessary resources to the poor, the homeless, those suffering with drug addiction, mental health issues.

\*Resources for ID, Birth Certificate, SS Card.

These items are very important for them to get the help they need.

\*Resources for employment, Social and mental health services, Federal benefits, Housing.

\*Resources for Substance abuse

I will also be able to offer:

\*Meal

\*Use of shower

\*First aid supplies

\*Seasonal clothing

\*Hygiene items

\*Wash load of laundry

\*Wintertime needs- Hot chocolate, Hot hands, Sternos, blankets, coats, gloves, scarves, toboggans.

I want to give a hand up to as many as possible, helping them get "Back on Track"

Thanks, Rebecca Luttrell
