444 South 5th Street, Ste. 300
Louisville KY 40202

**Subject: Revised Detailed District Development Plan
4826 Preston Highway**

To Case Manager,

The revised detailed district development plan is to change the use of an existing 980 SF building from a current auto sales/rental facility to a bus transit station. It will have seven parking spaces. The property is zoned C-2 and located within the Suburban Marketplace Corridor form district. The last development plan for the site was approved August 19, 2004 under Docket #09-030-04W.

Please do not hesitate to email me at cbrown@btmeng.com if you have any questions.

Sincerely,

Chris Brown, AICP
Planning Director/Project Manager
