

Metro Council  
May 19, 2022

>> Regular council meeting 2022 will come to order. Please rise for the pledge of allegiance to the flag.  
this meeting is being held, council rule 5A. Madame clerk let the records reflect -- madame clerk please  
call the roll. >> Councilmember BOEN? >> Present. >> Councilmember Dorsey.  
Councilmember Arthur. >> Councilmember perVIS? >> Present. >> Councilmember James?  
>> Here. >> Councilmember Mccraney? Councilmember Armstrong? >> Here.  
>> Commissioner Hollander? >> I can't hear you, sir, but I do see you. Thank you.  
Councilmember Cramer? >> Councilmember Blackwell? Councilmember fox? >> Here.  
>> councilmember Fowler? >> Present. >> Councilmember triplet? >> Here.  
>> Councilmember Reid? >> Here. >> Councilmember Winkler? >> Councilmember parker.  
>> Councilmember Benson? >> Present. >> Councilmember George? >> Councilmember Engel.  
Councilmember Peten? >> Here. >> Councilmember flood? >> Councilmember HOLton  
Stewart.  
Councilmember acreson. Councilmember Mccraney? Councilmember Cramer? >>  
Councilmember Engel?  
Mr. President, you have 19 and a quorum. >> Thank you madame clerk. Colleagues, our Covid  
cases are  
on the rise again. We are back in the orange zone. Our community lost three more people.  
Confirmed Covid cases increased 3041 in the past week. We need to stay vigilant. Please get  
vaccinated boosted.  
Encourage those around you the same. Please keep those touched on by Covid in your thoughts  
and  
prayers. We lost a member of the metro family Louisville firefighter Sean McAdams died after a  
medical emergency in the line of duty. Earned the highest level of valor and also a coast guard  
veteran. Please join me in a moment of silence. Thank you.  
Councilmember chambers, Armstrong, I think you have a special guest. >> I do in deed, thank  
you Mr.  
President. It is my honor to introduce district 8 Pippy Raymond. Eight years old, in second  
grade, she loves to read Greek mythology and plays soccer and basketball. I provider with  
certificate of  
recognition. Please help join me in helping her feel almost this evening. [APPLAUSE]  
>> Thanks for being here Pippy Raymond. >> Madame clerk any addresses to council?  
That's right. I am sorry. Councilmember Winkler? That's right.  
Councilmember Benson? You have two recognitions. >> Mr. President, councilmembers, I am  
pleased to  
share with you Miss Bellamy. Recently selected as Kentucky governor scholar. Zion highly  
accomplished 3.7  
GPA. High school junior at, go ahead, that is good. [APPLAUSE]  
high school junior Louisville HL and leader ROTC and member of the Marching band. Also a  
school ambassador and in  
the national honor's society. She has overcome significant obstacles including family tragedy,  
loss of grandfather and

work place accident in rubbertown. Also supported in assisting two siblings with disabilities. I know councilmember, me, represent my district are always eager to find highly accomplished constituents who live in the area we represent. I want to highlight Zion as a shining example of academic excellence and integrity. She will continue on in service to our community. I have a proclamation to tell her how important she is. [APPLAUSE] did you get that? >> [INAUDIBLE]. >> Good evening, today we are recognizing 21st century parks with master conservationist award. Highest recognition award presented to landowners local water, soil for individual land stewardship efforts. Less than 2% of private landowners recognized as master conservationists. To qualify, landowner must have completed 90% of soil and water conservation plan for land under control. Almost all if not all of land based natural resources are protected from serious degradation and managed for sustainability. Management techniques are those to be models and often emulated by others seeking to achieve similar levels of success. 2022 master conservationist given to 21st century parks. I know all of us enjoy regularly. Encompasses 4,000 acres visited by three million visitors each year. Since 2011. Natural resources conservation services worked with them to enhance VONSation through seven contracts, brush management, conservation cover, tree and shrub establishment. 21st century parks recognized by conservation district. Signed by the chairman of the Kentucky soil and secretary of environmental cabinet. They received commemorative as a master conservationist. We congratulate 21st century parks for accomplishment and being a good steward of the land and encourage all those that have the time to make the trip down bardstown road and enjoy the park continually enhanced. Please join in congratulating 21st century parks. >> Thank you to the Jefferson county soil district, councilmember Benson and everyone that took part in nominating us for this award. We take this serious lip and care about our park and the city of Louisville. I am the person accepting this. It is my staff that deserves all the credit. They did all the hard work. Thank you. [APPLAUSE] and councilmember Winkler, I think you have some special guests. >> Colleagues you maybe wondering who all these smart looking children are. I am pleased to introduce you to the Anchorage middle school academic team. So we have both fifth, sixth, seventh, eighth grade academic team both for team honors and individual honors. I would like to call out a couple of things about the team here. The seventh and eighth grade team won 2022 KAAC quick recall championship. We also had a number of individual award winners. Joe is right here. Joe, you won, correct me if I am wrong you won first place. Sydney, Alexander won first

place in language arts. We also had, there is a state test. National scholastic test. There is fifth and sixth grade component and seventh and eighth grade. Not only from anchorage, Joe is champion for eighth grade champion and proudly my daughter Emma Winkler is the sixth grade champion.

Not only do the good looks, also the brains in my family come from the wife's side. My job is to drag down the average in our Gene pool. Very proud of these kids and want to congratulate them and their coaches.

I have a proclamation for the school and for you all individually. Rather than reading all 13, I'll read the one for the school. To whom all these greetings shall come, Louisville city council whereas 6th, 7th, 8th graders participated in 2021 KAAC 6th grade show case, quick recall championship and 2022

American scholastic challenge. Whereas students brought home individual and or team awards from each of these competitions

and reflected well on our school and our city. Whereas metro council proud of the hard work these students put

into preparing and grateful for coaches that invested time and energy, now therefore and testimony who have, metro

Louisville government done in Louisville 19th day of may, 2022 Marcus Winkler, district 17th congratulations.

Henry, that is yours. We also have the coach. Coach, do you want to say anything about these kids?

He is a volunteer. He doesn't have a kid on the team or in the school currently. If that shows you the level of

KIMENT to commitment to put up with. Really prepared them and instilled in them a desire to learn and represent the school well, thank you, guys. >> These kids today were on a field trip to holiday world.

Sheltered because there was a tornado warning while they were in holiday world and booked it in time to make it in time for

the meeting. Also applaud their resilience. [APPLAUSE] >> Madame clerk, let the record reflect councilmember Winkler has the chair. >> So noted. >> President not to be left out, I believe you have special guests. >> I do thank you very much. All right how are you all doing?

So you may have noticed there is a group of women here that sorry and one boy. [Laughter]. All wearing orange. They are moms that demand gun violence we have a proclamation. We have a proclamation.

I am going to read the proclamation to you. To whom all these led letters shall come.

Louisville metro council honors gun violence awareness day. More than 110 Americans are killed by gun violence alongside

200 that are injured. Americans 26 more times likely to die from gun homicide than people in other high income

countries. Kentucky 770 gun deaths every year, rate of 17.1 deaths per 100,000 people.

Kentucky 14th highest rate of gun deaths in the U.S. cities are working to enter the senseless violence.

Protecting public safety is government's highest responsibility. Support for the second amendment

rights of law abiding citizen goes hand in hand keeping guns away from people with dangerous histories.

Whereas mayors and law enforcement officers and are best positioned to understand how to keep their citizen safe.

Whereas gun violence prevention is more important than ever as the Covid-19 pandemic continues to exacerbate increased calls to suicide and domestic hot lines. Anyone can join this campaign pledging to wear orange June 3rd, first Friday in June in

2022 to help raise awareness. Wearing orange, Americans will raise awareness and honor the lives of gun violence victims

and survivors. To be hereunto assigned on this 19th day of may, 2022. Thank you, [APPLAUSE]

>> They always push me out front. Thank you, thank you to the metro council for always supporting us and being behind us. We truly appreciate it. Thank you for all you do.

And where orange as he said June 3rd and June 4th. Wear orange event. Put your orange own, put your

walking shoes on and come enjoy the fight >> Any addresses to council? >> Yes, sir there are.

>> Let me remind those addressing council refrain from making profanity or derogatory statements.

Madame clerk call them forward. >> Daniel Cobble. >> I am here about the May 14th tops grocery store massacre.

I continue to listen to the same story background. Finally came FBI/authorities already trying to [INAUDIBLE]

the shooter Payton Gendron. Released from custody and allowed to purchase firearms. It was FBI negligence leading to

these murders. I am calling for resignation of FBI director Christopher Ray for harboring this FBI negligence.

I demand Ray's resignation. I demand independent audit of FBI activity. FBI facilitating mass shootings

to influence public opinion on gun control. March 28th, explaining why Kentucky house bill 314 now

passed necessary for allowing metro township to incorporate. April 19th, 2022 mayor candidate, I explained to the

candidate, federal reserves. Three antitrust violations causing tax payors to pay over 50% of federal taxes to the

national debt. Depletion of the U.S. tax base is why there is not enough money to serve as township.

Attached lines five and eight in the tax payor ballot sheet we are headed for academic depression.

President says it is recession due to inflation. Here again this is avoidable debt crisis along the the baby

formula and Biden allowing Putin to destroy Ukraine bread basket to create food shortages.

Emergency constitutional

convention for replacing Biden with Senator Joe Manchin as interim President and governor Ron DeSantis as Vice President.

Removing Biden to replacing federal reserve with the commercial contracts within the U.S. treasury department.

Thank you so much. >> Thank you. >> Dr. Annette Bridges. Miss Bridges, you are on mute. Sorry, Dr. Bridges. >> Okay. Good evening, my name is Annette Bridges. I would like to thank you for the opportunity to talk to you about issues effecting a lot of people. I hold a doctor degree in education for University of Louisville. I have had firsthand knowledge of having incarcerated parent. The effects it has on young children. Effects, social, emotional and cognitive development. This is such a big issue "Sesame Street" has created programs to help them move through these 'U}s. Not saying we should not hold people accountable, however we know African-American men make up majority of our population in our jail and no secret in too many instances also receive stronger sentences. We want to help children and families stay connected to incarcerated loved one. I place emphasis on children. We know -- burden of these calls fall on the women. Mothers, grandmothers and sisters. These calls are very expensive and places further financial burden. Louisville metro council on behalf of marginalized families we urge you to please make three phone calls happen. We have been talking about this issue for several years now. We know you can. You have the authority and power to make it happen. The other burden that continues in our community in-person visitation as not reopened. These families need person to person contact especially for the children. We need spaces to be clean, healthy and space. I once worked for a program that served low income communities. XHEK TIF executive families just because we serve them doesn't mean they have to look poor. We hope there will be immediate action to address these two important issues. I leave with scripture Micah 8:10 new living translation: Oh people, the lord told you what is good and this is what he requires of you, each one of you. To do what right, to walk humbly with your God. Please Louisville council. Please do what is right and what is good. >> Raphaella plateaued. >> Thank you for having me. Wonderful to be in this hall and SMEEK speak to one sending messages back and forth, thank you Pippy Raymond for your great service tonight. I am here on behalf of the art museum and our board. I am the director. I have already had the pleasure to talk to some of you about the part we are shaping. We have six acres around the museum. We have started embarking on six acres to a green space for the community. Adding a park to district 15. There are not a lot of green spaces and you will probably all be aware of it. This is a park truly for the community open and accessible 24 hours. Not only are we adding hundreds of trees, pushes, trucks, a lot of programs, activation and tremendous place to gather. We are an across demographics. People that otherwise wouldn't get together. Playing together enjoying life.

I am here we did put proposal together for our funding. Hope you will consider that. We have started fundraising process it is an 18 million dollar budget. It would be incredibly meaningful to this park if there were city support. I think you know more than others how important it is to spend time in nature. How people are nourishing. Thank you for your consideration. >> Thank you.

Nick Clark. >> Hello, I know I have met or spoken with some of you recently. Thank you for allowing me to speak to the whole council. My name is Nick Clark. I am here to address safety in our clubs. My husband was murdered by a bouncer. Christopher never got justice because of their negligence. City doesn't care and we are left with pain and agony in our hearts. I have spoke to you about Christopher's law bouncers receive deescalation and interpersonal communication and more. Many bars hire by word of mouth, physical stature and social media. Wouldn't you want there to be safety measures in place where anything could happen. Bouncer abuse happens everyday believe it or not. Just Google it. When your child and loved one goes to a bar, wouldn't you want them to -- it is a no brainer. Two years and four months I have been trying to make a change with our bar scene. Bartenders do not have to be trained how to serve alcohol and Christopher's law drafted by county attorney's office. For something so simple I don't understand why this can't be implemented. It would be the bouncer's responsibility to pay for the training they receive which is minimal. Hardly requires any time and money. Just like our military, police force, firefighters, teachers have to have training. I am no stranger to the bar scene. Two bartenders doing shots at big bar. I have a friend that got a job and they had to do two shots. Partner with me on Christopher's law. Violence, drug and crimes is not going to get better. I understand best practices, they are not mandatory for bars to follow. I plan to reach out to some or all of you to discuss how we can get Christopher's law off the ground 270-307-2249. Thank you for all of y'all's time and for listening. >> Thank you.

[INAUDIBLE] Clark. >> My name is Kenny Clark. I am speaking on behalf of my son-in-law, Christopher McKenny killed nowhere bar 2020. Christopher was the kindest and most loving thoughtful human being and our family is heart broken. We are on a mission to honor his name and memory by enacting Christopher's law requiring bouncers to receive training and certification relating to their jobs to prevent another tragedy from happening in our city again. Relating to untrained overaggressive bouncers are common place. April 2022, taboo lounge in Philadelphia, bouncer punches a patron in the head. A bouncer kicks a 20-year-old man in the head as he is being helped up in springfield, Missouri. June 2021, California, redwood city wine bouncer kicks patron in the head hits him in the flashlight. Bouncer hit as a patron resulting in his death. Just a few examples involving bouncers I did with a quick Google search. This absolutely independent Kated some regulations and training involving bouncers is needed.

Many states and cities have laws regulating bouncers. In Georgia bouncers have to have training to diffuse safely, how much force, when to call police and how to inspect ID's and identify intoxicated individuals. Security personnel required to handle tense situations and identify when a person is too intoxicated to be served.

California mandates bouncers complete 16 hours of job specific training. Pennsylvania bouncers receive training course identifying problem patrons best practices for safe removal of a problem patron without physically harming them or others. Requiring bouncers will make it safer in an alcohol-driven environment. Also helping owners to mitigate liability and lower insurance premiums. In close I would like to invite

one or more councilmembers enacting Christopher's law. >> Thank you. Patricia RAMy.

>> I am here today representing thousands of members of citizens concerned about insufficient availability in Louisville.

I don't have to remind you Stark numbers 72,000 individuals no or inadequate housing options. It is beyond the capacity of the

human mind to comprehend these numbers. We must remember they are not just numbers they are people,

they are families, seniors, veterans, mothers, cousins children. It is incomprehensible for us to understand devastating effect of poor housing on the lives of children. Ability to learn, development,

thrive. Every year every night as many as 5,000 children are home less living in shelters.

Sleeping on the couch, floor, car. We at clout are thrilled the American rescue plan allowed Louisville to invest 40 million dollars in the affordable housing trust fund. Across the United States have

proven to be the most effective ways to provide funding that makes it difficult be it new apartment complex Oren or

renovating homes. Make sure you continue the annual -- affordable housing must remain a priority.

Much like we fund city infrastructure. Housing is foundational for families and cities.

That said, once more, let me say it is necessary to fund the trust fund at its full ordinance defined level of 10 million

dollars. This year, every year. Good steps taken to make real changes happen.

Let's keep that progress going. >> Thank you. Jonathan Berkeley. >> Hello, my name is Jonathan

Berkeley. I am a member of the Baptist church. I am chair of the research committee. My family has a personal experience with the city gun crisis.

Six years ago my grandson was in a car with friends and someone came up to the car and shot his friend.

Involved in a petty disagreement. My grandson in the car. >> City wide listening process last fall involved nearly 400 members of the community. That is why clouts members voted for crime and gun violence be

our new area of focus for this coming year and beyond. Our research that followed, we had 22 meetings, local

professionals, officials, and service providers related to this problem area. Every meeting, officers safe and healthy neighborhoods came up as most critical in Louisville to address this gun violence crisis. Our community needs response to immediate crisis at hand and work proactively to end it. Officers safe and healthy neighborhood doing just that. That is why funding this year in the future critical. This is a problem that has taken root and take time to solve. Unfortunately we haven't seen negative repercussions giving programs time to work.

Can't make that mistake again. Collaborative with the community. Clout included to address this problem of crime and violence. I have 12 grandchildren. I want our children to be safe from gun violence.

Isn't that what we all want. >> Thank you. Maria Martin. >> I have lived in Louisville since 2005. I moved here from Rochester, New York. [INAUDIBLE] claim to be Denise Murphy in one way shape or form. I go by Denise. There is Denise Perkins Murphy. One used a maiden name I had

which was Mills. I got married again. It was a short marriage, we were divorced.

I am not sure what happened. December 2018, I tried to report theft of money, 800 off my direct express account.

I was told by officer Pierce I would get my money back and untrue. He refused to make a report on

social security card being gone and license. In general, July, my vehicle was stolen.

Why wouldn't I bring it home? Doesn't make sense. Subsequently sold my vehicle at auction.

Vehicle still registered in my name. I have six false police reports. I was evicted from my home.

I have been charged with things are absurd. Should be thrown out. I was approached on a street by

a woman named Blue who slapped my phone if I didn't stop I would be raped then my granddaughter.

One has come true. It was put on porn hub. I watched it because they made me.

I have told three judges, 16, 17 Louisville metros who laugh or walk away. The report says they came for a

report of trouble and that they were approached by me. That is it. His report says.

He was assaulted. I read the reports again I can't make sense out of them. The man walked up to me, I need

to be mindful of my singing, stop being so loud. Stop listening to my music, if people didn't want me here, I

would just move. They said I was uncooperative and would not follow through. I have three papers that say

officers or detectives took over. >> I am so sorry your time is up.

>> My time is not up. >> People have been up here. >> I hope when they kill me you all were paying attention.

>> Kim DAR. >> Thank you, I am with Kentucky interface power and light and remember of renewable energy

alliance of Louisville. I teach environmental studies environmental justice at University of Louisville.

I have converted my house and car to 100% renewable energy and worked with students from Dupont manual to put solar panels on their schools. It is my hope and dream to have solar panels on every JCPS. I want to thank you commitment to move this community to 100% renewable energy by 2040. I want to thank you all for resolution 04522 you passed in March of this year, establishing capital energy innovation fund where we take the money we save from energy efficiency, put it into a fund to build new energy efficiency structure. Working on a new budget I would like to include three new things if possible. First line item developing a plan that would lay out the steps, milestones, deadlines, responsibility and budgeting to meet those goals. Secondly, I would like to see additional seed money to fund energy innovation fund so we can meet the goals we set in the resolution in the year 2020. Third, I would like to include money in the budget to fund solar over Louisville solar grant program that helps low income residents facing high energy burdens. Finally, I would like to invite you to join us online for virtual conference June 29th at 7:00. I will send each of you an e-mail invitation tomorrow. Speakers Janet Beacher and Alison Smith Louisville office of advanced planning and sustainability. They will be talking about ways to meet our goals. >> Thank you, Mr. President, concludes the public comment. >> Thank you Madame Clerk.

Any corrections or deletions. >> Motion. >> All in favor say aye? >> Minutes approved as written.

Next we have approval of the following committee minutes 2022. April 18, 28th, regular planning an zoning committee, May 10th, 2022. Labor development committee, May 10th 2022. Regular government oversight audit committee May 10th, 2022. Housing health and education May 11th 2020. Appropriations committee 2022. Federal budget committee March 4th, 2022. Any corrections or deletions? Motion and second? Motion by councilmember Triplett. Second. All in favor say aye. Approved as written. Madame Clerk communications from the mayor? >> Yes, sir. >> Read those into the record. >> Volunteer fire districts ordinance. Jefferson board Mark [INAUDIBLE] June 30th. Volunteer fire district reappointing following to the pleasure ridge Clark fire protection board Charles Ford, dear President James in accordance with the ordinance, reappointing following to St. Matthews Kim Wrigley, Kathy Wrigley. Accord dance with the volunteer fire district ordinance, fire protection district Cheryl Hogan June 20th, prompt action is much appreciated sincerely Greg fisher mayor. I am reappointing following to the firm district 4, Tracy Deloch. Term expires June 30th, 2025. Your prompt action is sincerely appreciated. Fire protection board

reappointing following: Ron Weston term expired June 30th. Prompt action. Reappointment is appreciated.

Thomas Wobbe term expires June 2025. Human advocacy board appointing Alexandra Neumann.

New appointment. Term expires. Prompt action is most appreciated sincerely Greg fisher mayor. I am appointing following to the board Leah PUGH. I am reappointing following to

the zoo foundation board Mark Brown and David Tummonds. Red in full. >> Thank you.

Approved appointments needing council approval government oversight and audit committee.

Miss Pippy Raymond I want to

thank you for your service. You have done an outstanding job, thank you very, very much.

[APPLAUSE]

all right next order of business consent calendar items 27-48. Any additions or deletions? >>

Following legislation

afforded from appropriations committee. Item 27, 17,113 tree well expansions, curb repair and tree

purchases for Frank forth avenue. Item 28 No. 087 series 2021 relating to the fiscal year

2021-2022 operating budget for Louisville. District 26. Item 29 ordinance amending

ordinance No. 087 transferring \$15,000 from district 13 to Louisville metro council. Item 30th, appropriating \$7,000

from district 14 neighborhood development funds to the Louisville metro police department.

Excess speeding. Item 31 appointment of Jerry eves to the 'Juneteenth' jubilee commission.

45,000 square feet total. And being in Louisville metro case No. 225 closure 0007. >> Item 48 a resolution

authorizing the mayor to accept \$50,000 of funding from the friends of bardstown. >> Read and full.

>> thank you. Motion and second. >> Motion Winkler, second by commissioner.

Consent moved and following. Madame Clerk will you please open the roll. Madame Clerk call the roll for

those not in chambers. >> [INAUDIBLE] >> Yes. >> Yes.

>> councilmember Purvis? >> Yes. >> Councilmember [INAUDIBLE]? >> Yes.

>> Councilmember hill? >> Yes. >> Complete councilmember fox? >> Yes.  
>> Councilmember Fowler? >> Yes. >> Councilmember Flood? Mr. President 23 yes votes.  
Madame Clerk reading of item 49. >> Resolution of detailing the expectations of metro council regarding best practices for board, training, expense authorizations, procurement and hiring. As amended read in full.  
>> Motion by Winkler. Councilmember? >> I would yield the floor. >> Councilmember PIAG GENTI.  
>> I want to thank everybody for bearing with me. Few stops and starts due to personal circumstances.  
I couldn't make a meeting. This was amending one more time. Amendments double strike or double underlined.  
cleaned up the language with the administration. I think we all had similar goals originally passed one decent.  
Overwhelming support this version passed unanimously out of committee. Change clarifies that initial appointees, we don't expect them to address these oversight measures. As a reminder this is a resolution because many of the boards we are referring to, Frankly it is really great we are in the midst of the budget cycle. Quasi-agencies MSD and a few others. There is language that makes it clear, we are not targeting all boards just these that have fiscal oversight. Some of these boards are established via state statute. We don't have the ability to mandate this via law. State league implications.  
Bless you, councilmember Blackwell. If we hold them accountable, they wouldn't be surprised. Many boards have started to implement this, that has been good. Ask for your approval. Glad to answer questions if there are. >> Any questions or comments from councilmember Piagentini?  
This is a resolution allowing for voice vote. All in favor say aye. >> Aye.  
>> Opposed? >> Ayes have it. Resolution passes. Madame Clerk reading of item No. 50. >> An ordinance relating to the zoning of property located at 1203 Paine street containing.  
>> Motion Winkler, >> Second Piagentini. >> Ordinance before us. Any discussion councilmember Reed? >> Thank you Mr. President, this passed out of committee unanimously.  
Request for change of zoning from R 6 to c 1 commercial in councilmember Hollander's district.  
>> Thank you. Commissioner Hollander? >> Thank you. This is a single family home, r 6 zoned property Paine street. Expansion of that existing restaurant. Developer worked closely with the neighborhood association. Neighborhood association asked among other things the property remain residential.  
Front of the property. That is a binding element. Other binding elements. I would ask for your approval.  
>> Any further discussion? Hearing none, ordinance requiring roll call vote. Madame Clerk please open the roll. >> Councilmember Bowens? >> Yes. >> Councilmember shank Lynn.  
Councilmember Purvis? >> Councilmember Mccraneny? >> Yes. >> Councilmember Cramer? Councilmember fox? Councilmember Fowler. >> Yes. >> Councilmember Triplett?

>> Yes. Councilmember Flood. >> Mr. President, you have 22 yes votes.

>> Thank you, ordinance passes. Madame Clerk reading of item No. 51. >> A resolution requesting the planning commission review the metro land development code regulations with regards to trees and tree canopy.

Read in full. >> Thank you, motion by councilmember Piagentini. Second by councilmember Winkler.

Ordinance before us. Councilmember Reed? >> Councilmember Winkler requesting planning commission look at the tree -- my esteemed colleague would like to speak on this. >> Thank you, sir. Councilmember Winkler? >> Thank you President James and councilmember Reid Reed. We'll keep it brief.

Passed a little over a year ago. Maybe unintended consequences related to development of certain type parcels particularly ones part of industrial sort of larger industrial parks. Where you need a flat plain. You would have to do grading. Encouraging plans commission to look at those things, determine did we overshoot? Undershoot or in the right spot. Any clarification needed? I have an amendment I would like to add it adds a No. 3.

Insuring adequate funds. This came out of a meeting generally supportive of this resolution. Issue they brought up is are current regulation require \$250 fee in lieu per tree. State requirement around 750.

They felt like 250 may not adequately cover the cost. I don't know what the right answer. Point is determine is 250 right? Should be 150, should it be 400. I would ask for your support. Happy to answer any questions.

Ultimately the goal to increase our tree canopy. Should be our long-term goal. Thinking of funding for trees.

Thinking of complete streets plans and how we line our roadways with trees or pedestrian. We need a comprehensive look. However we want to balance that with not having wanted to add undo regulation already moving through the process. and making sure we are not creating unintended consequences.

Would ask for your support. >> Thank you. >> Councilmember Hollander. >> I voted against this in committee. I am going to vote for it tonight. I want to explain in part tree removal fee probably needs to be increased. We think it ought to be studied. I am skeptical it should be done. I thank you for letting me speak. >> Thank you councilmember Hollander. >> Does this have a time in it? Without one planning commission tends to not come back in a timely fashion. >> I don't believe. I am happy to entertain friendly amendment.

>> Typically 60 days minimum. Anything above that, less than whatever you can tolerate is good.

>> Travis, do we think 180 days might be reasonable? >> Assistant county attorney. Certainly could be.

What we generally advised on these KRS requires 60 days. Council can decide to hold their own public hearing.

Then make their own decision. not doing so won't prevent us from exercising our ability to bring it back in front of us, 60

day or 61 or day 600. If you would like a suggestion, I wouldn't call it strictly necessary.

>> Thank you. >> I would first like to I guess make amendment in the form of a motion.

Second? >> Second. Armstrong. >> Second by councilmember

chambers. Discussion councilmember Piagentini. >> In reference to timing,

question, I may have just talked about to this organization. Maybe something we are asking review related to the planning

commission. There is a lot of the of stuff we are asked to review, what was your timeline and quick?

My only point is I'll be glad to vote for whatever timeline. That might mean they put off something else.

They basically said so many reviews they have to do. Only so many people, so much time.

Not against it. With the reality of legislating that, might force that planning to review and put it off if it

doesn't have a timeline, thank you. >> Thank you, councilmember. >> Commissioner Hollander?

>> I would point out, we already asked them to review the development code regarding trees and something sponsored by

councilmember Peten. I did want to point it out. Thank you. >> Any further discussion on the amendment? Seeing none, all in favor say aye all opposed. Thank you, amendment passes.

Councilmember Winkler? >> In light of councilmember Piagentini Travis, would your recommendation be to add

recommendation section 2 otherwise become law add something like and recommend next 180 days?

>> So actually, I think section 2 language standard language we put in everything. At the very end of section 1

before the subsection, should be added to that review returned to council in 180 days. >> I hate to could be

understanding, is it possible to make it softer? Would prefer recommendation 180 days?

>> Return to council recommendation 180 days. >> I would make that in the form of a motion.

>> Motion by Winkler, second by commissioner Reed. All in favor say aye >> Aye.

>> Opposed? Thank you, amendment passes. Commissioner Winkler? Further discussion on this resolution? Hearing none resolution allowing for voice vote, all in favor? Opposed?

Councilmember your

resolution took longer that councilmember Piagentini. >> I was going to say. New business comprises business

52-64. Please read items and assignments to the committee.

>> Following legislation assigned to labor and economic development committee. Item 57; ordinance of Louisville

Jefferson county metro government the issuer authorizing the issue of bonds in the aggregate principal

amount not to exceed 119 million dollars and the denominated Louisville Jefferson county metro government, 2022 bonds
