CM Coan / Jasmine,

I met with my contractor yesterday and went over this project. My updated cost estimate for putting in a hardened median at the intersection of Speed & Lauderdale is \$12,200. This includes costs for sawcutting, removal of asphalt pavement, installation of an "Island" typed header curb with a concrete median that will be painted with yellow stripes, just like the way it is out there now (the picture attached is a smidge misrepresentative). Since this area is in the Louisville National Register District, I included the costs for Historic Concrete. I would like to ask for a total of \$15,000 for a little wiggle room during the construction process.

If you have any questions regarding anything related to this work, please don't hesitate to contact me.

Thanks,

**Steve Kurowsky, PE**
