# Development Plan

# Variance

## LDC 5.1.8.B Maximum Setback

*The maximum setback requirement shall be satisfied when 60% of the lot frontage adjacent to the street(s) is occupied by building(s) between the maximum setback line and minimum setback line. Once the 60% standard is met, further development is not subject to the maximum setback. This requirement applies to multi-family residential and any non-residential development. Additions that do not extend the building wall adjacent to a street frontage shall be exempt from the maximum setback.*

# Binding Elements

- The previous binding elements pertained to the go-cart track and should be eliminated and replaced with the proposed binding elements recommended by Planning and Design staff.
