

MSD NOTES:

- Construction plans and documents shall comply with Louisville and Jefferson County Metropolitan Sewer District Design Manual and Standard Specifications and other local, state and federal ordinances.
- Sanitary sewer service will be provided by lateral extension and subject to applicable fees. A Downstream Facilities Capacity was approved by letter dated 11/18/2019 by MSD.
- A portion of the site is within the 100 year flood plain per FIRM Map No. 21111 C 0097 E dated December 5, 2006.
- Drainage pattern depicted by arrows (→) is for conceptual purposes.
- If the site has thru drainage an easement plat will be required prior to MSD granting construction plan approval.
- Site is subject to Regional Facilities Fees in lieu of on-site detention. Payable directly to MSD.
- Any required fill in the floodplain shall be compensated on site at a ratio of 1.5:1.
- All drainage, EPC and Water Quality practices shown on this plan are for conceptual purposes only. Final design of these elements will be determined prior to construction plan approval and shall comply with all MS4 and MSD Design Manual requirements.
- Karst features were observed on site per Patriot Engineering & Environmental, Inc. Geotechnical Engineering Investigation dated June 12, 2020.
- ACOE and KDOV approval required for sanitary sewer lateral extension.
- If site has thru drainage an easement plat will be required prior to MSD granting construction plan approval.

GENERAL NOTES:

- Parking areas and drive lanes to be a hard and durable surface.
- An encroachment permit and bond will be required for all work done in the right-of-way.
- There shall be no commercial signs in the Right of Way.
- Site lighting shall not shine in the eyes of drivers. If it does it shall be re-aimed, shielded, or turned off.
- Construction fencing shall be erected prior to any construction or grading activities preventing compaction of root systems of trees to be preserved. The fencing shall enclose the area beneath the dripline of the tree canopy and shall remain in place. No parking, material storage, or construction activities shall be permitted within the fenced area.
- Mitigation measures for dust control shall be in place during construction to prevent fugitive particulate emissions from reaching existing roads and neighboring properties.
- Compatible utilities shall be placed in a common trench unless otherwise required by appropriate agencies.
- Wheel stops or curbing, at least six inches high and wide, shall be provided to prevent vehicles from overhanging abutting sidewalks, properties or public right-of-ways, to protect landscaped areas and adjacent properties. Wheel stops shall be located at least (3) feet from any adjacent wall, fence, property line, woody vegetation, walkway or structure.
- Construction plans, bond, and permit are required by Metro Public Works prior to construction approval.
- Cedar Creek Road Right of Way dedication to be recorded prior to construction approval.

WAIVER REQUEST:

- A Waiver is requested from Section 10.2.4 of The Louisville Metro Land Development Code to allow the 100% overlap of the Proposed Landscape Buffer Area and the 15' Sewer & Drainage Esmt next to building 13 along the north property line.
