Brian Mabry  
444 S 5<sup>th</sup> Street  
Louisville KY 40202

Good afternoon, Mr. Mabry.

I am a West End resident in Louisville and I am opposed to the proposed methane biodigester plant being placed in ANY neighborhood in Louisville's West End.

It poses a serious health risk to our communities, and no amount of monetary or educational compensation is a "trade-off" for the potential risk of health and well-being of West End residents.

Please let the people of the Planning Commission know that I voiced my concern to you.

Sincerely,

Shirley Burke
