STANDARD OF REVIEW AND STAFF ANALYSIS FOR VARIANCE FROM SECTION 5.4.1.D.2

- (a) The requested variance will not adversely affect the public health, safety or welfare.

STAFF: The requested variance will not adversely affect the public health, safety or welfare, because the proposed addition must be constructed to comply with all building codes, including fire codes.

- (b) The requested variance will not alter the essential character of the general vicinity.

STAFF: The requested variance will not alter the essential character of the general vicinity as there are multiple other properties in the area with similar designs and a variety of building types.

- (c) The requested variance will not cause a hazard or nuisance to the public.

STAFF: The requested variance will not cause a hazard or nuisance to the public because the structure must be constructed to comply with all building codes.

- (d) The requested variance will not allow an unreasonable circumvention of the zoning regulations.

STAFF: The requested variance will not allow an unreasonable circumvention of the zoning regulations as there is still a significant amount of private yard area.

ADDITIONAL CONSIDERATIONS:

1. The requested variance arises from special circumstances which do not generally apply to land in the general vicinity or the same zone.

STAFF: The requested variance does not arise from special circumstances which do generally apply to the land in the generally vicinity or the same zone as the lot is similar in size and shape to other surrounding lots.

2. The strict application of the provisions of the regulation would deprive the applicant of the reasonable use of the land or create an unnecessary hardship on the applicant.

STAFF: The strict application of the provisions of the regulation would create an unnecessary hardship on the applicant as the subject property currently is nonconforming in regard to private yard area.

3. The circumstances are the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought.

STAFF: The circumstances are not the result of actions of the applicant taken subsequent to the adoption of the zoning regulation from which relief is sought as the applicant has not started construction and is requesting the variance.

VARIANCE PLAN REQUIREMENT

In accordance with LDC Section 11.5B.1.C (Requirement to Follow Approved Plan), a variance shall be approved only on the basis of the plan approved by the Board and shall be valid only for the location and area shown on the approved plan.
