Charles,

I wanted to report on the investigation at Les's Meat Market that we had discussed on the phone the other day. I went out there yesterday and checked everything out, and discussed his plans for repairs and in keeping the product he sells safe for our citizens. I did advise that he obtain additional cold holding units to coincide with the volume of meat that he sells. As far as the building condition on the inside, I did not observe any critical violations during my visit. Please see my attached report for more details. I will be going back out within the month to conduct a regular inspection and to monitor progress and procedures with him.

Thanks for the information,

Marty
