Dan,

Yes, this can happen. If you can begin the process for appropriating the money that will ensure we are ready to conduct the project ASAP. This will likely have to wait until next Spring.

Evan and Bobby,

I will let you know when we have the PO to complete work.

William and Patricia,

This is just an FYI at this time. We will need to place temporary no stopping anytime signs at this location again. Likely won't be until next Spring but I wanted to include you.

Thanks,

Stuart

Ok....we would like to have this done all in one day for \$850. Can the following to occur: Signs out several days in advance with the date posted for the work – weather permitting or other failure. Notify our office of this day and the Councilman and I will get out early that morning to move vehicles with PARC's assistance if possible. If we can make that happen then we want to proceed. This is a procedure I have employed many, many times years ago with Public Works and it worked extremely well! Let me know if this can happen and then we can appropriate the \$.

Just confirmed with Reynold's. There will be a remobilization fee to go back to the job site.

They already got the kettle ready and went onsite once. My understanding is a second trip is a remobilization fee.

Are you sure about the second mob fee? I thought they had agreed to go back out one more time.
