I believe he plans to join us. What I will say is this is a pretty standard thing. I'll turn it over to. Are you guys going to speak to it? Yes. Okay. So what, I'll just tee things up and say pretty standard movement of a few funds related to some projects. But why don't we have a public works come up and talk in more detail about that? Wes, if you can identify yourself for the record and then you can begin your testimony afternoon. I'm We, I'm the executive director of Louisville Public Works department. Yeah. Thank you, COUNCILMAN. Council members, committee members, for hearing this. As you mentioned, this is in regards to legislation regarding council directed traffic calming. There were three projects that had adjustments out of the 18 that were originally budgeted. You know, as projects develop and get, you know, designs, those those numbers tend to get refined. You have some that come in under budget and some that get planned that that need some additional budget. And so what this does is clarifies those budgets. Reallocates within the district 15 traffic calming projects moves, you know, some money that's not needed for for one of these and then or a couple of these and then transfers that excess to one of their other projects that would have been in need. And then it also identifies the district three traffic calming project from a to d to be determined to the Arcade Avenue traffic Calming project, which consists of Restriping and other improvements. And so that is basically in summary, the, the, the gist of this, this ordinance and what it does. Terrific. Thank you very much. Are there I don't have anybody in the queue currently. I have Vice Chair Winkler. Yeah, I was just going to ask if you could add me as a co-sponsor. Typically, Kevin and I co-sponsor these, and I think I just didn't see the email. So yeah. Okay. Yes, please to add COUNCILWOMAN Shameka Parrish Wright and then the added language. So I was just asked by my friend and colleague, MISS Stenberg, to mention the added language. We added. We added, you mean the last sentence that was added, correct? Yes, yes. Which reads, quote, any remaining funds after a project listed is

complete MAY be used on other listed projects needing additional funding. So just giving really us the ability to, you know, as projects come, you know, in or under budget, being able to move them into other projects as well. So thank you very much, MISS Stenberg.\r\n\r\nAny other I don't have anybody else in the queue. Any questions? Going once, going twice. I don't see anybody.
