

Planning Commission

Staff Report

November 18, 2021

Case No:	21-ZONE-0107
Project Name:	Zaxby's Regional Office
Location:	12407 Rehl Road
Owner(s):	Korean Baptist Mission Church
Applicant:	Unbridled Chicken LLC
Jurisdiction:	Louisville Metro
Council District:	20 – Stuart Benson
Case Manager:	Dante St. Germain, AICP, Planner II

REQUESTS

- **Change in zoning** from R-4 Single Family Residential to OR Office Residential
- **Detailed District Development Plan** with Binding Elements

CASE SUMMARY/BACKGROUND

The subject site is located along Rehl Road near the intersection with Tucker Station Road, and consists of one parcel developed with a religious institutional use. The applicant proposes to rezone the property in order to re-use the existing structure as an office.

The property is mostly surrounded by large-lot single-family residential uses, with an institutional use to the immediate east. Rehl Road is a secondary collector and scenic corridor at this location.

STAFF FINDING

Staff finds that the zoning proposal meets the guidelines of the Comprehensive Plan. The site plan meets the requirements of the Land Development Code and the guidelines of the Comprehensive Plan.

TECHNICAL REVIEW

Plan 2040

Land Development Code (Louisville Metro)

MSD and Transportation Planning have provided preliminary approval of the proposal.

INTERESTED PARTY COMMENTS

No interested party comments have been received by staff.

STANDARD OF REVIEW FOR REZONING

Criteria for granting the proposed form district change/rezoning: KRS Chapter 100.213

1. The proposed form district/rezoning change complies with the applicable guidelines and policies Plan 2040; OR
2. The existing form district/zoning classification is inappropriate and the proposed classification is appropriate; OR
3. There have been major changes of an economic, physical, or social nature within the area involved which were not anticipated in Plan 2040 which have substantially altered the basic character of the area.

STAFF ANALYSIS FOR CHANGE IN ZONING

The site is located in the Suburban Workplace Form District

A Suburban Workplace is a form characterized by predominately industrial and office uses where the buildings are set back from the street in a landscaped setting. Suburban Workplaces often contain a single large-scale use or a cluster of uses within a master planned development. New larger proposed industrial uses are encouraged to apply for a planned development district.

In order to provide adequate transportation access in suburban workplaces connected roads, public transportation and pedestrian facilities should be encouraged. Walkways to workplace-serving uses are encouraged for workplace employees. Development within Suburban Workplace Form Districts may need significant buffering from abutting uses.

Following is staff's analysis of the proposed rezoning against the Goals, Objectives and Policies of Plan 2040.

The proposal to rezone the site from R-4 is appropriate as the site is located in the Suburban Workplace form. OR zoning is a relatively low-intensity zoning district appropriate for the mostly residential neighborhood in which the site is located. This zoning district would permit residential uses as well as low-impact office uses, for which the site is well-suited. The site is not located on sewers, but relies on a septic system. High-intensity uses are unlikely to develop on the site unless sewerage is provided in the future.

The proposed zoning district is generally in compliance with the plan elements and CHASE principles of Plan 2040. All other agency comments should be addressed to demonstrate compliance with the remaining Goals, Objectives and Policies of Plan 2040.

A checklist is attached to the end of this staff report with a more detailed analysis. The Louisville Metro Planning Commission is charged with making a recommendation to the Louisville Metro Council regarding the appropriateness of this zoning map amendment. The Louisville Metro Council has zoning authority over the property in question.

STANDARD OF REVIEW AND STAFF ANALYSIS FOR DDDP

- (a) The conservation of natural resources on the property proposed for development, including: trees and other living vegetation, steep slopes, water courses, flood plains, soils, air quality, scenic views, and historic sites;

STAFF: The existing structure is proposed to be retained. No natural resources are currently evident on the site. Tree canopy will be provided on the site.

- (b) The provisions for safe and efficient vehicular and pedestrian transportation both within the development and the community;

STAFF: Provisions for safe and efficient vehicular and pedestrian transportation within and around the development and the community has been provided, and Metro Public Works has approved the preliminary development plan.

- (c) The provision of sufficient open space (scenic and recreational) to meet the needs of the proposed development;

STAFF: No open space requirements are pertinent to the proposal.

- (d) The provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community;

STAFF: The Metropolitan Sewer District has approved the preliminary development plan and will ensure the provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community.

- (e) The compatibility of the overall site design (location of buildings, parking lots, screening, landscaping) and land use or uses with the existing and projected future development of the area;

STAFF: The overall site design is compatible with the existing and future development of the area. The structure to be used already exists and has existed on the site for many decades, becoming part of the fabric of the neighborhood.

- (f) Conformance of the development plan with the Comprehensive Plan and Land Development Code. Revised plan certain development plans shall be evaluated for conformance with the non-residential and mixed-use intent of the form districts and comprehensive plan.

STAFF: The development plan conforms to applicable requirements of the Land Development Code and policies of the Comprehensive Plan.

REQUIRED ACTIONS

- **RECOMMEND** that Metro Council **APPROVE** or **DENY** the **Change-in-Zoning** from R-4 to C-2
- **APPROVE** or **DENY** the **Detailed District Development Plan** with **Binding Elements**

Suburban Workplace: Non-Residential

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
1	Community Form: Goal 1	6. Discourage non-residential expansion into existing residential areas unless applicant can demonstrate that any adverse impact on residential uses will be mitigated. Evaluation of impacts may include, but not be limited to, displacement of residents, loss of affordable housing units, traffic, parking, signs, lighting, noise, odor, and stormwater. Appropriate transitions from non-residential to residential uses should depend on the pattern of development of the Form District and may include natural vegetative buffers, landscaping or the use of higher density residential between lower density residential and/or non-residential.	✓	The proposed zoning district would constitute a non-residential expansion into an existing residential area. The proposed zoning district permits relatively low-impact uses, including residential uses.
2	Community Form: Goal 1	7. Locate higher density and intensity uses near major transportation facilities and transit corridors, employment centers, in or near activity centers and other areas where demand and adequate infrastructure exists or is planned.	✓	The site is located near an existing employment center.
3	Community Form: Goal 1	8. Encourage industries to locate in workplace Form Districts or in areas readily served by infrastructure and transportation facilities, including transit, rather than isolated industrial sites.	NA	The proposal is not for industrial zoning.
4	Community Form: Goal 1	15. When reviewing proposals for siting hazardous uses and uses with air, noise and light emissions, ensure disadvantaged populations are not disproportionately impacted.	✓	The proposed zoning district would not permit hazardous uses. Uses with air, noise and light emissions must comply with LMCO and LDC restrictions.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
5	Community Form: Goal 1	16. Consider impacts on human health, quality of life and the environment including prevailing meteorological conditions and the potential to transport noxious odors, particulates and emissions when reviewing new developments and redevelopments. Special attention should be paid to air and water quality when residences, schools, parks or vulnerable populations will be impacted. Mitigate impacts to areas that are disproportionately affected.	✓	The proposed zoning district would not permit uses with noxious odors, particulates or emissions.
6	Community Form: Goal 1	17. Mitigate adverse impacts of traffic from proposed development on nearby existing communities.	✓	Access to the site is via Rehl Road, a secondary collector at this location.
7	Community Form: Goal 1	18. Mitigate adverse impacts of noise from proposed development on existing communities.	✓	The proposed zoning district would not permit uses likely to generate high volumes of noise.
8	Community Form: Goal 1	21. Require that industries which handle hazardous or flammable materials or are potentially offensive such as junkyards, landfills and quarries are sited to protect public health, safety and welfare and are located away from residential areas and population centers.	✓	The proposed zoning district would not permit junkyards, landfills or quarries or similar uses.
9	Community Form: Goal 2	1. Locate activity centers in appropriate areas in all Form Districts. Design and density should be compatible with desired form, adjacent uses, and existing and planned infrastructure.	✓	The proposal would be appropriate for the Suburban Workplace form.
10	Community Form: Goal 2	5. Locate retail commercial development in activity centers where it can be demonstrated that sufficient population exists or is anticipated to support it.	NA	Retail would be permitted by the proposed zoning district.
11	Community Form: Goal 2	6. Encourage a more compact development pattern in activity centers that result in efficient land use and cost-effective infrastructure investment.	NA	The site is not on sewers and the existing structure is proposed to be re-used.
12	Community Form: Goal 2	7. Encourage activity centers to include a mixture of compatible land uses in order to reduce traffic congestion by requiring fewer trips, support and enhance alternative modes of travel, and encourage vitality and a sense of place.	✓	The site is not in an existing activity center. The proposal would permit a mixture of compatible land uses should the site ever be connected to sewerage.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
13	Community Form: Goal 2	8. Encourage residential land uses in designated centers. Encourage residential and office uses above retail and other mixed-use multi-story retail buildings.	✓	The proposed zoning district would permit residential land uses in a center.
14	Community Form: Goal 2	9. Encourage new developments and rehabilitation of buildings that provide commercial, office and/or residential uses.	✓	The proposal would re-use an existing building and provide office uses.
15	Community Form: Goal 2	10. Encourage outlot development in underutilized parking lots of existing development to promote utilization of existing infrastructure provided specific criteria for elements such as location, scale, signs, parking, lighting, and landscaping are met. Outlot development shall encourage street-level retail with residential units above.	✓	The proposal does not include underutilized parking lots.
16	Community Form: Goal 3	9. Encourage development that respects the natural features of the site through sensitive site design, avoids substantial changes to the topography, and minimizes property damage and environmental degradation resulting from disturbance of natural systems.	✓	No natural features are evident on the site.
17	Community Form: Goal 3	10. Encourage development to avoid wet or highly permeable soils, severe, steep or unstable slopes where the potential for severe erosion problems exists in order to prevent property damage and public costs associated with soil slippage and foundation failure and to minimize environmental degradation.	✓	No wet or highly permeable soils, or severe, steep or unstable slopes are evident on the site.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
18	Community Form: Goal 3	11. Encourage land uses within the Ohio River Corridor that are appropriate for and related to river corridor activities and that are consistent with the goals and objectives of the Ohio River Corridor Master Plan. Reserve appropriate riverfront sites such as the Upper River Road industrial area for river-related development. Allow development of commercial leisure businesses related to the river, such as boating services and restaurants in appropriate locations. Encourage new development in the Ohio River corridor and along key greenway and street connections to provide for public access in new riverfront development and to maintain views of the river from public rights-of-way.	NA	The site is not located in the Ohio River Corridor.
19	Community Form: Goal 3	12. When reviewing proposed developments consider changes to flood-prone areas and other features vulnerable to natural disasters such as sinkholes and landslides. Ensure appropriate measures to protect health, safety and welfare of future users of the development.	✓	The site is not in a flood prone area. No karst features are evident on the site.
20	Community Form: Goal 4	1. Preserve buildings, sites, districts and landscapes that are recognized as having historic or architectural value and ensure that new land uses are compatible in height, massing, scale, architecture style and placement when located within the impact area of such resources.	✓	The proposal would re-use an existing structure.
21	Community Form: Goal 4	2. Encourage preservation of distinctive cultural features including landscapes, natural elements and built features.	✓	The proposal would re-use an existing structure.
22	Mobility: Goal 1	4. Encourage higher densities and intensities within or near existing marketplace corridors, existing and future activity centers, and employment centers to support transit-oriented development and an efficient public transportation system.	✓	The site is located in a Workplace form and near an existing employment center.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
23	Mobility: Goal 3	2. To improve mobility, and reduce vehicle miles traveled and congestion, encourage a mixture of compatible land uses that are easily accessible by bicycle, car, transit, pedestrians and people with disabilities. Housing should be encouraged near employment centers.	✓	The site is easily accessible by bicycle, car, pedestrians and people with disabilities. The site is not accessible by transit. An increase in density provided by the zoning change would increase the likelihood of future accessibility by transit.
24	Mobility: Goal 3	3. Evaluate developments for their ability to promote public transit and pedestrian use. Encourage higher density mixed-use developments that reduce the need for multiple automobile trips as a means of achieving air quality standards and providing transportation and housing choices.	✓	The site is accessible by pedestrians and the proposal would encourage higher density mixed-use developments.
25	Mobility: Goal 3	4. Encourage development of walkable centers to connect different modes of travel. Siting of these multi-modal centers shall consider the effects of the following: 4.1. nodal connections identified by Move Louisville; 4.2. impact on freight routes; 4.3. time of operation of facilities; 4.4. safety; 4.5. appropriate linkages between neighborhoods and employment; and 4.6. the potential for reducing travel times and vehicle miles traveled.	✓	Transportation Planning has approved the proposal.
26	Mobility: Goal 3	5. Evaluate developments for their impact on the transportation network (including the street, pedestrian, transit, freight movement and bike facilities and services) and air quality.	✓	Transportation Planning has approved the proposal.
27	Mobility: Goal 3	6. Ensure that those who propose new developments bear or share in rough proportionality the costs of transportation facilities and services made necessary by development.	✓	Transportation Planning has approved the proposal.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
28	Mobility: Goal 3	9. When existing transportation facilities and services are inadequate and public funds are not available to rectify the situation, the developer may be asked to make improvements, roughly proportional to the projected impact of the proposed development, to eliminate present inadequacies if such improvements would be the only means by which the development would be considered appropriate at the proposed location.	✓	Transportation Planning has approved the proposal.
29	Mobility: Goal 3	10. Ensure that necessary improvements occur in accordance with long-range transportation plans and level of mobility criteria for all modes of travel.	✓	Transportation Planning has approved the proposal.
30	Community Facilities: Goal 2	1. Locate development in areas served by existing utilities or capable of being served by public or private utility extensions.	✓	The relevant utilities have approved the proposal.
31	Community Facilities: Goal 2	2. Ensure that all development has an adequate supply of potable water and water for fire-fighting purposes. Locate only very low-density land uses on sites that use on-lot sewage disposal systems or on a private supply of potable water.	✓	Louisville Water Company has approved the proposal.
32	Community Facilities: Goal 2	3. Ensure that all development has adequate means of sewage treatment and disposal to protect public health and to protect water quality in lakes and streams as determined by the Metropolitan Sewer District (MSD).	✓	MSD has approved the proposal.
33	Economic Development: Goal 1	1. Limit land uses in workplace Form Districts to compatible uses that meet the needs of the industrial subdivision or workplace district and their employees.	✓	The proposal would meet the needs of a Workplace form.
34	Economic Development: Goal 1	2. Encourage industries, to the extent possible, to locate in industrial subdivisions or adjacent to an existing industry to take advantage of special infrastructure needs.	NA	The proposal is not for industrial zoning.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
35	Economic Development: Goal 1	3. Locate commercial uses generating high volumes of traffic on a major arterial street, at the intersection of two minor arterials, or at a location with adequate access to a major arterial and at locations where nuisances and activities of the proposed use will not adversely affect adjacent areas.	✓	The proposed zoning district would not permit uses generating high volumes of traffic.
36	Economic Development: Goal 1	4. Utilize industrial sites near the airport and the Ohio River to support the growth and development of uses whose infrastructure and production needs require such a location or for land uses that support airport-oriented or river-oriented industrial uses.	NA	The proposal is not for industrial zoning. The site is not located near the airport or the Ohio River.
37	Economic Development: Goal 1	5. Require industrial developments to locate with the appropriate transportation connectivity, near an arterial street or within existing industrial subdivisions.	NA	The proposal is not for industrial zoning.
38	Livability: Goal 1	17. Determine site susceptibility to erosion; identify the presence of on-site carbonate conditions and features that are vulnerable to site disturbance; identify the extent of existing groundwater use and the impacts of the project on groundwater resources, flow patterns, and existing and proposed surface drainage. Then mitigate potential hazards to such systems resulting from the project.	✓	No karst features are evident on the site.
39	Livability: Goal 1	21. Mitigate negative development impacts to the integrity of the regulatory floodplain by encouraging development patterns that minimize disturbance and consider the increased risk of more frequent flooding events.	NA	The site is not located in the floodplain.
40	Livability: Goal 1	24. Ensure, to the extent feasible, that critical facilities and those that store or use hazardous wastes are located outside the regulatory floodplain. Where essential community facilities must be located within a floodplain (e.g., pumping stations), ensure that these facilities are designed, located and operated in a manner that minimizes loss of services during flood events as well as limits, to the extent possible, floodplain disturbance.	NA	The site is not located in the floodplain.

#	Plan 2040 Plan Element	Land Use & Development Policy	Staff Finding	Staff Analysis
41	Housing: Goal 1	2. Promote housing options and environments that support aging in place. Encourage housing for older adults and people with disabilities to be located close to shopping and transit routes and, when possible, medical and other supportive facilities.	✓	The proposal would support aging in place by permitting low-intensity office development in proximity to residential development.
42	Housing: Goal 2	1. Encourage inter-generational, mixed-income and mixed-use development that is connected to the neighborhood and surrounding area.	✓	The proposal would permit mixed-use development by permitting low-intensity office development in proximity to residential development.
43	Housing: Goal 2	2. Locate housing within proximity to multi-modal transportation corridors providing safe and convenient access to employment opportunities, as well as within proximity to amenities providing neighborhood goods and services. Higher density, accessible residential uses should be located along transit corridors and in or near activity centers.	✓	The proposed zoning district would permit neighborhood-serving office development in proximity to housing.
44	Housing: Goal 3	2. As neighborhoods evolve, discourage displacement of existing residents from their community.	✓	No existing residents will be displaced by the proposal.
45	Housing: Goal 3	3. Encourage the use of innovative methods such as clustering, mixed-use developments, co-housing, and accessory apartments to increase the production of fair and affordable housing.	✓	The proposed zoning district would permit innovative methods of housing.

4. Proposed Binding Elements

1. The development shall be in accordance with the approved district development plan, all applicable sections of the Land Development Code (LDC) and agreed upon binding elements unless amended pursuant to the Land Development Code. Any changes/additions/alterations of any binding element(s) shall be submitted to the Planning Commission or the Planning Commission's designee for review and approval; any changes/additions/alterations not so referred shall not be valid.
2. No outdoor advertising signs, small freestanding signs, pennants, balloons, or banners shall be permitted on the site.
3. Construction fencing shall be erected when off-site trees or tree canopy exists within 3' of a common property line. Fencing shall be in place prior to any grading or construction to protect the existing root systems from compaction. The fencing shall enclose the entire area beneath the tree canopy and shall remain in place until all construction is completed. No parking, material storage or construction activities are permitted within the protected area.

4. Before any permit (including but not limited to building, parking lot, change of use, site disturbance, alteration permit or demolition permit) is requested:
 - a. The development plan must receive full construction approval from Construction Review, Louisville Metro Public Works and the Metropolitan Sewer District.
 - b. The property owner/developer must obtain approval of a detailed plan for screening (buffering/landscaping) as described in Chapter 10 prior to requesting a certificate of occupancy. Such plan shall be implemented prior to occupancy of the site and shall be maintained thereafter.
 - c. A Tree Preservation Plan in accordance with Chapter 10 of the LDC shall be reviewed and approved prior to obtaining approval for site disturbance.
5. There shall be no outdoor music (live, piped, radio or amplified) or outdoor entertainment or outdoor PA system audible beyond the property line.
6. No idling of trucks shall take place within 200 feet of residential structures. No overnight idling of trucks shall be permitted on-site.
7. A certificate of occupancy must be received from the appropriate code enforcement department prior to occupancy of the structure or land for the proposed use. All binding elements requiring action and approval must be implemented prior to requesting issuance of the certificate of occupancy, unless specifically waived by the Planning Commission.
8. The applicant, developer, or property owner shall provide copies of these binding elements to tenants, purchasers, contractors, subcontractors and other parties engaged in development of this site and shall advise them of the content of these binding elements. These binding elements shall run with the land and the owner of the property and occupant of the property shall at all times be responsible for compliance with these binding elements. At all times during development of the site, the applicant and developer, their heirs, successors; and assignees, contractors, subcontractors, and other parties engaged in development of the site, shall be responsible for compliance with these binding elements.
