Councilman James,

The estimate for five years for two lights to be placed in this area would be \$2,542.80. If this is something you would like to move forward with, once appropriations has been made, it's typically a 2-4 week timeline for LG&E to get the lights out there. If there's anything else, please let me know.

Arnitra, per our discussions, CM James requested that Traffic Engineering evaluate Shipp Avenue and determine optimal locations for additional streetlights (see attached document for proposed locations). Please pass this on to LGE for review and additional comments and let CM James know cost, scope, schedule, etc. Thanks!!!

LOCATION MAP (Shipp Avenue between 7th and 5th)

Gentlemen, please look at adding additional Cobra-head lights along this section of Shipp...We would then identify the recommended locations and refer them to LGE for cost, etc...

Thanks!!!

Pat,

This is a follow up :

Checking to see if you had a chance to look at the lighting issue along Shipp street and Lee Street near The Province at U of L ?

Thank you,

David
