Subject: 18CUP1008, doggy day care, 713 E. Broadway

In reference to the above zoning request, I was concerned about commerce that might want to locate in my neighborhood (Phoenix Hill), but might not help our area have a positive living environment.

Beth, thank you for going over particulars of the request and sanitary requirements that would be required. I looked around the environs of the doggy day care at Baxter near Broadway today to see what I could see, hear, and smell. The facility did not smell, even in the backlot; I did not hear howling dogs even though it was 9:00 am and clients were bringing in their dogs. There could be need for this service that has requested the zoning change and the general location at 713 E Broadway is a commercial block on the way to and from downtown.

From what I found out, this business could be a very reasonable addition to our local commerce and not a detraction from a livable neighborhood.

Thank you for this opportunity to respond.
