**Re: Roadway Cut
Olmsted Place Subdivision
2050 Millvale Road
Louisville, Kentucky
Project Number 20-194G**

Dear Mr. McAuliffe:

In the report, I mentioned that there are not slopes over 20 percent. However, there is to a shallow roadway cut that will be over 30 percent. This roadway cut is to be supported by a retaining wall and design of retaining walls is addressed in the section of the report covering earth pressures.

If you have any questions in regard to this roadway cut, please call.

Sincerely,

GREENBAUM ASSOCIATES, INC.

Sandor R. Greenbaum, P.E.
Principal Engineer
