

First Capital Bank of Kentucky would like to amend the binding elements for signage for their location at 2735 Bardstown Rd. In the original binding elements, it stated that the sign shall be in accordance with Chapter 8 and as presented at the public hearing (6feet tall, 21 square feet).

We would like the binding elements to be changed so it can be in accordance with Chapter 8 for what is currently allowed which is 80 square feet and 10 feet tall.

The current sign they have is very small compared to the other signs in the area and they would like to make a new sign so the bank will have better visibility for their clients.
