Amendment to Binding Elements

On a motion by Commissioner Turner, seconded by Commissioner Brown, the following resolution was adopted:

WHEREAS, the Louisville Metro Land Development and Transportation Committee finds that the proposal to sell the site of the proposed new Lampton Park to JCPS for Meyzeek Middle School as green space still preserves the initial intent of the site to be held as open space; and

WHEREAS, the Committee further finds that vehicle and pedestrian mobility will not be affected by the removal of the conditions of approval; and

WHEREAS, the Committee further finds that sufficient open space for the Sheppard Square proposal is being maintained with other open space areas within the development as well as with the current proposal. The transfer of the "park" space to JCPS will not affect the overall open space of the area as JCPS will be utilizing the space as open/park space; and

WHEREAS, the Committee further finds that the provision of adequate drainage facilities on the subject site in order to prevent drainage problems from occurring on the subject site or within the community has been addressed. Drainage will not be affected by the elimination of the conditions of approval; and

WHEREAS, the Committee further finds that the overall site design will not change with the transfer of open space from Parks to JCPS; and
