Explanation of Interest

**All of my extended family lives in Louisville and I've visited multiple times a year growing up to visit them, but I didn't move here permanently until I graduated college in 2020. While living in Cherokee Triangle I've had the opportunity to enjoy one of the most walkable neighborhoods in the city, but even in my neighborhood, and especially in many other areas of the city, there's opportunity to further support pedestrian, bike, and public transit infrastructure while providing additional support for mobility impaired individuals. I hope this initiative can improve our neighborhoods by providing safe pedestrian, bike, personal electric vehicle, and transit-friendly streets that decrease our city's reliance on car travel. Additionally, COVID has put open space at a premium, and it's important we work to implement ways to accommodate additional outdoor space for businesses.**
