Carrie,

For the five years if we were to estimate it, the cost would be **\$600** for the five years. LG&E said there are Electric Fuel Adjustment and Environmental Surcharges and that there is no guarantee that the rate would stay the same in those 5 years. I'm basing that estimate of how much the light is currently each month and the varying charges.

Just checking in on this. Once you can get a figure, I'll have the appropriation to as soon as possible. I think they only have enough for another month or so left on their account.

Thanks,
Carrie

Carrie,

We'll treat it like the others; having money allocated for 5 years. I'll check with LG&E to see if this is possible. If it is, then the Craycraft residents need to understand that at the end of the 5 years, council may or may not continue to fund. If not, then Craycraft will either resume payments or the light will be removed.

Good Morning,

Pres. King has been contacted by residents of Craycraft about funding their street light and he has agreed to do so. A few neighbors have been keeping it up and attached is a statement for the light. How do we proceed to do this?
