Subject: RE: Sandpit bridge area

The Barrier will be stacked two high (total 2 sets) in front of the current gates, the purpose of this is to keep the dirt bikes and people from easily accessing the bridge to gain entrance in the the sand pit. We do have another entrance we can use from the Deering road side. Once the barriers are place it will take a backhoe to move them as they have lift points on top of them.

I think this will help a lot with people access the area but its not a guarantee fix, because people will find ways no matter what we do.

So if you wish to contact me about the funding transfer process i be glad to get the ball rolling and installed as soon as possible.

Thanks
Jim Carpenter

Much appreciated to you both.

President Yates has agreed to fund through a CIF the cost of having the barriers installed.

Does Parks or LMPD have any reason to believe the installation of these will cause any issues or concerns within your departments?

There are still ways to access this area from the Jefferson Memorial side correct?

Will the installation of the barriers keep LMPD from being able to easily patrol this area as we will still have issues with foot traffic and potentially homeless camps?

Please let me know your thoughts.

Thank you,

Boles, Brian

This breaks down to 4 barriers at \$400 each (\$1600) and \$900 for delivery and the equipment and manpower to move them in place and stack them. Thos would be done by a current metro vendor.

Thank you Jimmy. I have literally never heard of this so far and greatly appreciate the information.

Before President Yates funds, Michelle and Bonnie please let me know if you think this would help curb the traffic or would just shift it.

Jimmy, what is the \$2,500 break down for? That will be President Yates' First question.

Thank you,

Brian Boles

I can get the highway barriers stacked two high and delivered and setup for about \$2500 just waiting for funding source.

I will keep you up to date if i hear more.
