Councilwoman Hamilton and the District 5 community oppose the planned boarding house located at 2733 W. Market Street, and the community encourages the denial of the Conditional Use Permit for the boarding house.

The community feels that the building of this boarding house will do nothing but increase an already spiked rate of crime and violence in the West End of Louisville.

Many complaints, police runs and loitering occurs in this area. The liquor and comer store across the street presents a constant problem for police and residents.

District 5 is already inundated with boarding houses, halfway houses and rooms for rent. In order to help our community to become a better place, another rooming house will not be welcomed.

Sincerely,

Cheri Bryant Hamilton
Councilwoman District 5
