RE: Eleena Dr Street Name Change Justification

This small segment of road was named Eleena Dr as part of the Dixie Beach subdivision recorded in DB 1462 Pg 72. After the construction of Dixie Hwy, there were no properties addressed on this road and the residual segment of Eleena Dr became the intersection with Dixie Hwy that serves Dixie Beach Rd. The existing railroad crossing on Eleena Dr is already identified as Dixie Beach Rd on the US DOT Crossing Inventory Form, see attached.

Emergency Services has evaluated this request, along with the Pleasure Ridge Fire Department, and both concur that this street name change will reduce confusion and potential emergency response times.

Sincerely,

Jeff Brown
Assistant Director
Louisville Metro Public Works
