Subject: RE: Athletic Field Video

Hello Brian,

Thanks for the follow-up. I did watch the video.

In follow-up to the video and our telephone conversation last week I have just a few comments.

First, there is always some project specific issue that is the impetus for a change to the LDC. That project may not wait for the change to the LDC and continue on. But planning staff remember the issue and try to address it in the LDC when and where it is determined appropriate.

Second, the calculation for similar land uses seemed a bit skewed. I think the Council need to know that there is a large tract that weighted the average and if you threw the one large acreage tract out and just averaged the others the average acreage will be much.

Finally, even if this change is approved that does not mean that Valley View or anyone else gets to build their ballfields. They will still need to come back to BOZA and get their CUP approved as well as any potential variances or waivers.

Thanks again.

Subject: Athletic Field Video

Mark

Here is the video of the Ad Hoc Committee on the LDC hearing.

http://louisville.granicus.com/MediaPlayer.php?view_id=2&clip_id=4380

If you click item #3 on the left side of the screen it will take you about 48 minutes into the hearing when the topic of the athletic fields begins being discussed.
