

100RC partners with cities around the world to help them become more resilient to the social, economic and physical challenges that are a growing part of the 21st century.

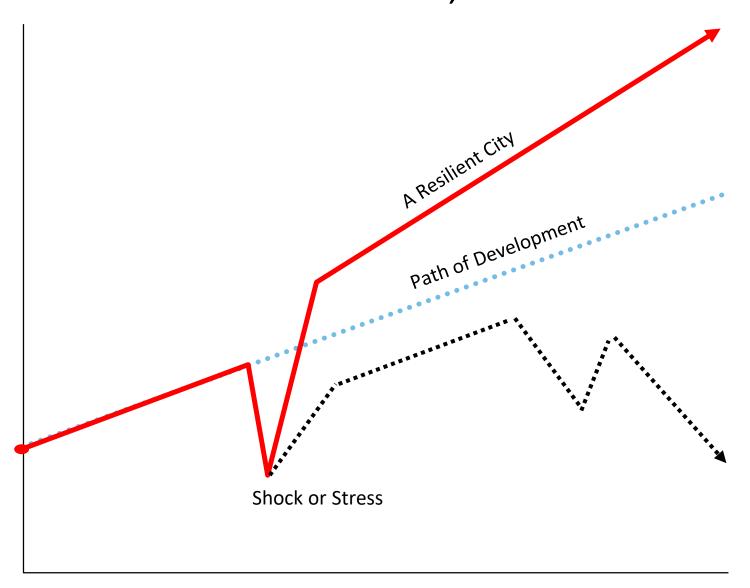

## Our Member Cities

Following a highly competitive application process (1,000+ applications), 100RC selected a first group of cities in December 2013, announced the second in December 2014, and the third in May 2016

Shocks and stresses can bring opportunities for cities to evolve, and in some circumstances, transform.

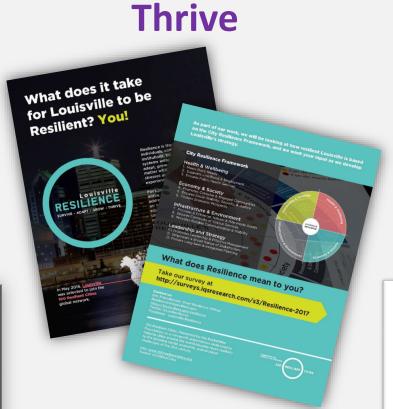

### **Louisville Resilience**

Everyone Has the Opportunity to Survive, Adapt, Grow, and

روسائل RESI<mark>LIENCE</mark>

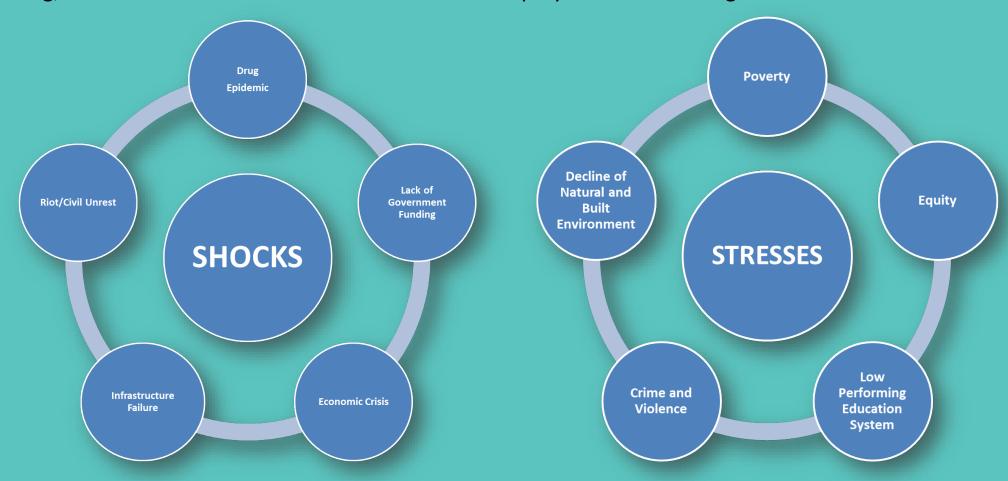

## LOUISVILLE Shocks + Stresses

The root causes of the shocks and stresses are identified in the discovery areas of the PRA: trauma, trust, economic well-being, and infrastructure as it relates to health with equity as a cross-cutting theme.

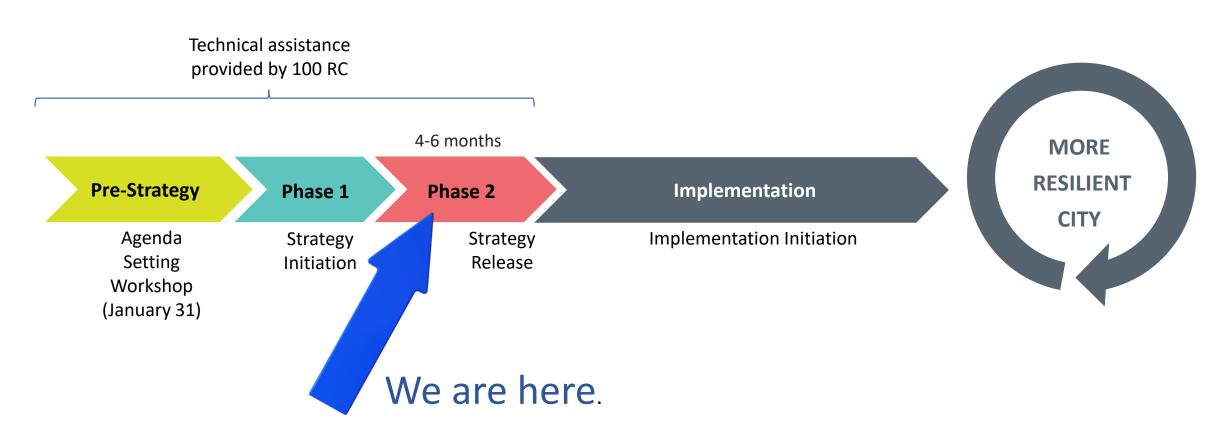

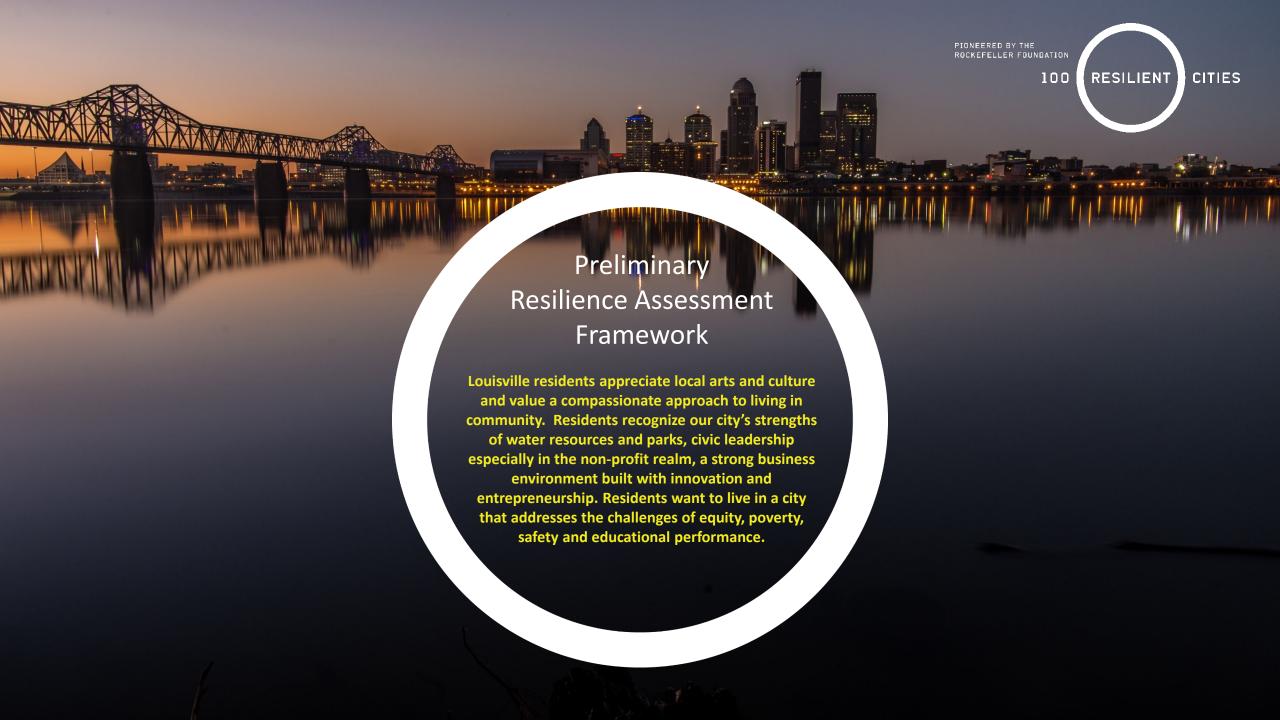

## **Building Upon Our Strengths**

## The Process

The Strategy is a tactical roadmap to build resilience that articulates the city's resilience priorities and specific initiatives for short-, medium-, and long-term implementation.

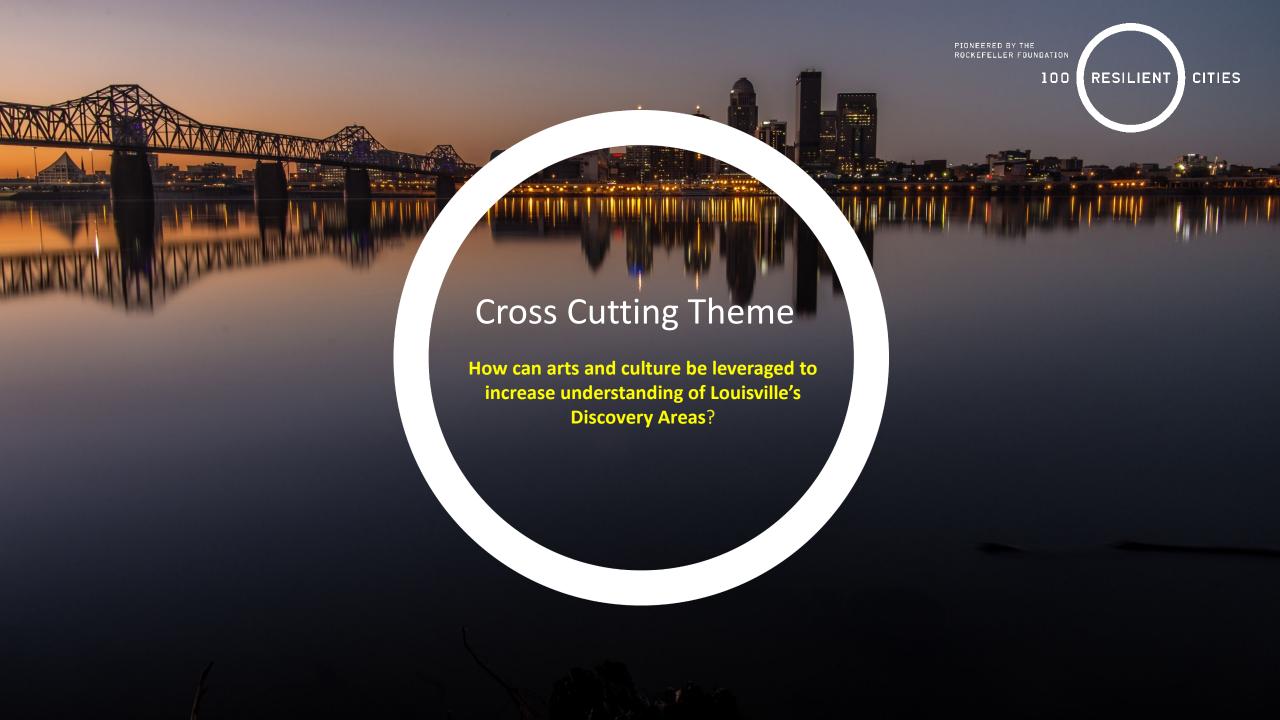

Inequity was identified as an area of concern, an underlying cause of risk from the acute daily experience of stress that impacts lives and weakens resilience to endure shock. In response, Louisville Resilience will apply an equity lens that will be used to address all questions in each Discovery Area.

In Louisville, equity means that everyone has a fair and just opportunity.

**Strengthen Built & Natural Infrastructure that Promotes Health** 

## **Enrich Culture of Compassion & Trust**

Louisville Metro will build resilience by cultivating compassion and trust. Enriching the culture of compassion and trust will encourage transparency among entities, build open communication and foster social cohesion.

### Strengths:

Louisville's arts and culture Culture of compassion Mayor's Give a Day Multiple social events, festivals and other activities

#### **Concerns:**

Trust among governmental entities
Trust between citizens and government
Trust and understanding between affluent and impoverished neighborhoods
Inequitable power distributions

### **Objective:**

Identify opportunities to build upon Louisville's culture of compassion and trust

## **Enhance Resilience to Trauma**

Trauma adversely impacts lives. Severe events in life cause trauma leading to poor health outcomes and quality of life. By building resilience, individuals develop the skills needed to mitigate traumatic events.

### **Strengths:**

One Love Louisville Bounce Coalition Mindfulness Project Cradle to Career

### **Concerns:**

Lack of systemic trauma informed approaches Lack of funding for trauma mitigation programs Increase in addictions to substances Community violence

### **Objective:**

Identify strategies that can help residents build resilience when facing traumatic life events.

## Increase Financial Capacity, Wealth Building & Economic Opportunity

Healthy communities have opportunities to build financial stability. Economic resilience will occur by closing the wealth gap, helping residents build ownership opportunities, and ensuring all can prosper and grow.

### **Strengths:**

Bank On Louisville
Diverse economic drivers
Small business and micro-lending programs

### **Concerns:**

Disparate life outcomes due to poverty
Increasing wealth gap
Lack of access to affordable, community-based capital

### **Objective:**

Identify strategies that support social mobility, wealth building and financial stability

#### **DISCOVERY AREA #4**

## Strengthen Built & Natural Infrastructure that Promotes Health and Wellbeing

Resilient communities are cognizant of the value of all types of infrastructure in promoting health.

Increased awareness builds engagement that supports an environment leading to a healthier quality of life.

### **Strengths:**

Parks system
Access to water
Envirom Institute
Conn Center for Renewable Energy Research

### **Concerns:**

Failing infrastructure and lack of community will Lack of jobs related to renewable resources Enhansed risk due to increasing heat and rainfall Public transit and available resources to grow

### **Objective:**

Identify Strategies that use the built and natural environment to promote health and wellbeing

## **STRATEGY PHASE 2**

## A Time of investigation, Initiative Design and Vision Setting

Analyze, Innovate, and Partner

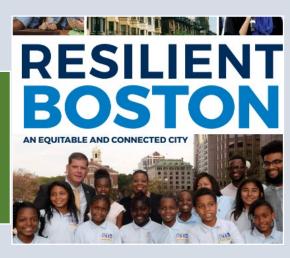

**Identify and Prioritize Opportunities**
