RE: WALL STREET FORCED- HOME EVICTIONS, LOUISVILLE'S DEBT, 48% FOOD INSECURITY & HOMELESSNESS CAUSED BY SAME PROBLEM; • PETITION LETTER TO STOP PAINFUL TARIFFS

I wish to thank those who responded to help stop the Wall Street forced- home evictions at my apartment complex. The new landlord's demand for **\$1,950 in new rent and security deposits** instantly confirmed for me why food insecurity affects 48% of U.S. homes and rising homelessness. Imagine the families with children getting these Notices. My wife became ill and had to take-off from work. **The Secretary of State improperly registered the landlord** so the public cannot identify the owners of these properties. So YES, Gov't is conspiring against the People. — Famed Author Jared Diamond points-out in his new book, "Upheaval," that America is spiraling towards its own destruction. I, too, have been telling you this, but the difference is I am showing exactly how America is being destroyed. Yet you can reverse the quiet transfer-of-massive-wealth that's causing this city's unwarranted debt, **ETC.**, by demanding politicians to reinstate the three policies that's causing this theft. Here they are again, demand to: **1)** increase the Fed's prime interest rate to approximately match China's prime rate of 4.54%. **2)** Stop investment bankers from getting wholesale dollars from the Federal Reserve; they are required to compete for dollars in the commercial sector with everyone else. And **3)** reinstate the Glass-Steagall Act of 1933 that separates your bank accounts from the activities of Wall Street. -- It comes down to: How much will you contribute to your own security?

The other budget emergency is to help stop the dangerous tariffs imposed by President Trump. **Please mail-in the attached Petition-letter.** Many of you know that President Trump is classically narcissistic. He can only view the world in two dimensions, but life is dangerously three-dimensional. In my April 5 certified letter, I explained that his tariffs are creating the same conditions that brought Japan into World War II; that nations will not tolerate America stopping their economic growth. Furthermore, the tariffs are destroying American businesses and restricting the sale of U.S. treasury bonds that forces us to borrow more money for ever higher debt.

So please mail-in this Petition-letter repeatedly until the tariffs are stopped. The President needs to hear from you. – Thank you!

P.S. Each American should temporarily set-aside his and her sports and entertainment to focus on reversing these policies that will save our nation from ultimate collapse. We should be working to avoid coming even close to that scenario. -- **Here's one more truth:** Gov't cannot focus on a safe foreign policy while conspiring against its own people.

Please Stop the Tariffs War

Dear President Trump,

Please stop the tariffs on all nations, including China. This situation is hurting our economy in many ways. Americans, and the higher U.S. debt from the lack of trade, are not worth the costs and pain of you collecting \$125 billion in tariffs. Or the higher prices and struggling farmers and businesses.

For now, you should restrict U.S. businesses from sharing sensitive intellectual property and trade secrets with China. **The U.S. can do without that trade.**

Stopping the tariffs will also make it easier to restart negotiations with N. Korea.

– Thank you!
