# FY17 - FY22 NDF Budget

## Council District

FY17	FY18	FY19	FY20	FY20	FY22
\$75,000	\$75,000	\$75,000	\$65,000	\$65,000	\$65,000

Some Council districts carryforward their unappropriated NDF balances over fiscal years to accumulate sufficient balances to allocate NDF funds to future large community projects and programs, and/or to transfer their NDFs to their CIFs for future capital projects in their districts, such as the Petersburg Parks improvements, Joe Creason Walking Path Project, and other capital projects determined by the districts.

# FY16 - FY22 CIF Budget

## Council District

FY16	FY17	FY18	FY19	FY20	FY21	FY22
\$50,000	\$50,000	\$50,000	\$100,000	\$100,000	\$100,000	\$100,000

In FY16, FY17 and FY18, each Council district was offered the option of giving up to \$50,000 of their CIF in exchange for control of \$50,000 MAP funding if the entire \$100,000 was used exclusively for paving or sidewalk repair/construction. This resulted in each district having control of \$150,000 instead of the usual \$100,000.

Some Council districts have elected to accumulate their unappropriated CIF balances over the years to pay for future large expensive capital projects in their districts, such as parks improvements, new sidewalks, sidewalk repairs, paving, renovations, and other capital projects as determined by the districts.
